**Certification Statements:**

1. The United States has been free from foot and mouth disease for at least twenty-four (24) months immediately prior to the date of exportation of the animals.
2. The United States is free from Dourine and Glanders.
3. No cases of equine infectious anemia, vesicular stomatitis, equine encephalomyelitis, mange, contagious equine metritis, equine influenza, equine piroplasmiasis, equine viral arteritis, or equine rhinopneumonitis have been diagnosed on the premises from which the horses originate during the period of sixty (60) days immediately prior to the period of exportation.
4. The animals were tested, with negative results, for equine infectious anemia (EIA) within 6 months prior to export with an AGID or ELISA test.
5. The animals were vaccinated against equine encephalomyelitis (Eastern and Western), and equine influenza within one month prior to export.
6. The animals were treated for external and internal parasites within 7 days prior to exportation with approved products with residual activity against internal and external parasites.
7. In accordance with U.S. Code of Federal Regulations 9 part 91, the animals will be inspected by USDA APHIS at the port of embarkation within 48 hours or less prior to their embarkation, to ensure they are free from clinical signs of the disease listed in this certificate or any other infectious or contagious disease of concern to the species.

OTHER INFORMATION: Notice of arrival must be given at least twenty-four (24) hours prior to the horses being landed.
