Animal Health Certification Requirements for Export of Ornamental Aquatic Animals from United States to Malaysia

Consignment details

- i. Name and address of the aquaculture establishment of origin or location of harvest:
- ii. Date of shipment:
- iii. Name of exporting country: United States
- iv. Name and address of the exporter: see above
- v. Name of the competent authority (CA) of the exporting country: United States Department of Agriculture - Animal and Plant Health Inspection Service (USDA-APHIS)
- vi. Country of destination: MALAYSIA
- vii. Name and address of the importer: see above

Identification of the animals

- i. Species (scientific name and common name): see above
- ii. Quantity: see above
- iii. Total number of packages: see above

Health information

I, the authorized officer identified above, declare that:

1. The live fish must come from an officially recognized country, zone, farm, or establishment unaffected by the OIE listed diseases (refer annex 1). The live fish have been subjected to a health surveillance program according to the procedures as described in the "Diagnostic Manual for Aquatic Animal Diseases" from Office International Des Epizooties (OIE).
2. The live fish have been inspected by the competent authority of the exporting country within 72 hours of export date and showed no clinical sign of disease.
3. The live fish must not come from any source that had an unusual mortality during the previous six (6) months, which the cause could not be confirmed. The fish have not been subjected to any prohibitions due to unresolved increased mortality.
