

**IMPORT HEALTH REQUIREMENTS OF TRINIDAD AND TOBAGO
FOR DAY OLD DUCKLINGS FROM THE
UNITED STATES OF AMERICA**

The animals must be accompanied by a U.S. Origin Health Certificate issued by a veterinarian authorized by the U.S. Department of Agriculture (USDA) and endorsed by a Veterinary Services (VS) veterinarian. The certificate shall contain the name and address of the consignor and the consignee. Additional certification shall include:

CERTIFICATION STATEMENTS

1. That flock or flocks of origin are free from infection with Duck Viral Enteritis, Duck Viral Hepatitis, Reimerella anatipestifer and Salmonellosis.
2. The hatchery or hatcheries of origin are free from evidence of communicable diseases.
3. The flocks and farms from which the birds originate were not located under quarantine restrictions for Newcastle Disease or Avian Influenza.
4. The flocks and farms from which the birds originate were not located under quarantine restrictions for Newcastle Disease or Avian Influenza.

ADDITIONAL REQUIREMENTS

1. The ducklings must be newly hatched and not fed or watered.
2. The ducklings must be presented for entry in new, clean containers.
3. An import permit is required.
4. The animals are transported directly from the country of origin to Trinidad.

OTHER INFORMATION

1. The Division of Veterinary Services reserves the right to retain samples for testing
2. The Division of Veterinary Services reserves the right to refuse entry of the entire shipment, if conditions are not in accordance with those stipulated above.
3. The ducklings will not be released to the Consignee, until they have been examined by an Inspector of the Animal Health Sub-Division, Ministry of Agriculture, Land and Marine Resources and found to have satisfied the conditions stated above.
