**Veterinary Health Certificate for Export of Live Cattle from the United States of America to the United Arab Emirates**

**Veterinary Authority**

UNITED STATES DEPARTMENT OF AGRICULTURE

**Date Of Issue**

**Certificate Number**

**Certification Statements:**

I, the undersigned USDA accredited veterinarian, certify that the animals described above meet the following requirements:

1. The United States is recognized by the World Organization for Animal Health (OIE) as a foot and mouth disease free country.
2. The United States is free from Rift Valley fever, Crimean Congo haemorrhagic fever (CCHF), lumpy skin disease (LSD) without vaccination, and contagious bovine pleuropneumonia (CBPP).
3. The animals originate from a state(s) that is officially free of brucellosis.\*

OR

The animals were subjected to a diagnostic laboratory test for brucellosis, with negative results, within 60 days prior to export.\*

4. The animals were protected from vectors for a minimum period of 28 days prior to export and within that period underwent laboratory testing that detects bluetongue virus antibodies with negative results. If an animal had positive results for bluetongue virus antibodies, the animal was tested for bluetongue virus agent with negative results prior to export.\*

OR

The animals were protected from vectors for a minimum period of 14 days prior to export and within that period underwent laboratory testing that detects bluetongue virus agent with negative results.\*

5. The animals originate from establishments with no reported cases of anthrax for at least 20 days prior to export.
6. The animals originate from establishments with no reported cases of rabies for at least 1 year prior to export.
7. Animals for breeding purpose: The animals originate from establishments with no reported clinical cases of trichomonosis, paratuberculosis, infectious pustular vulvovaginitis, vibriosis (campylobacteriosis), leptospirosis, or listeriosis for at least 6 months prior to export.
8. Details of any vaccines given to the animals during the 6 months prior to export including the name of the disease, the vaccine type, and the date of vaccination are as the following, or are attached to this certificate\*\*:

| The name of the disease | The type of vaccine | Date of vaccination |
|-------------------------|---------------------|---------------------|
|                         |                     |                     |

9. The feeding of ruminants with meat-and-bone meal and greaves derived from ruminants is banned and effectively enforced in the United States.
10. The United States is recognized by the OIE as having a negligible risk status for bovine spongiform encephalopathy (BSE).
11. The animals originate from a state(s) that is officially free of bovine tuberculosis, according to the OIE Terrestrial Animal Health Code standards for country incidence.\*

OR

The animals originate from establishments that have no reported cases of bovine tuberculosis for at least the past 12 months and the animals were tested with negative

results by tuberculin test within 30 days prior to export.\*

- 12. The animals were treated for ectoparasites and endoparasites prior to export and were treated with insect repellent registered in the United States, in accordance with the manufacturer's recommendations, within 14-28 days prior to export.
- 13. The animals were clinically examined by a USDA accredited veterinarian and were found to be free of any clinical signs of infectious or contagious diseases including Q fever.
- 14. The animals will be visually inspected by an APHIS veterinarian within 48 hours prior to export and only animals that appear healthy and fit to travel will be exported.

*\*Delete as appropriate.*

*\*\*Vaccination details can be listed in the table or as attachment/annex of the health Certificate (with reference).*
