Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:

1. The day-old chicks originate from a country or zone (state) where highly pathogenic avian influenza, as defined by the World Organization for Animal Health (WOAH) Terrestrial Animal Health Code, was not reported in poultry for at least 12 months prior to export, or have freedom for a minimum period of 28 days after the successful control applying a stamping-out policy and disinfection after an outbreak in country/zone which has been previously free (delete if not applicable).
2. The day-old chicks originate from zones (states) which are free from Newcastle disease, as defined by the WOHM Terrestrial Animal Health Code, in poultry for at least 12 months prior to export, or for at least 3 months if case of applying a stamping-out policy.
3. The flock or flocks and the hatchery or hatcheries from which the above-described day-old chicks originated were inspected within 30 days prior to setting of eggs for above shipment of day-old chicks and found free from evidence of communicable diseases and insofar as can be determined have not been exposed to Newcastle disease, fowl plague, fowl typhoid, ornithosis, and pullorum disease. During the usual routine inspection of the flock or flocks there was no visible evidence of communicable diseases observed.
4. The day-old chicks originate from U.S. origin flocks and have not been in contact with any other birds of a lower health status.
5. The day-old chicks originate from parent flocks which participate in the National Poultry Improvement Plan (NPIP).
6. If the parent flock was vaccinated within 3 months prior to export, provide the type and age at vaccination: _____
7. The shipment of chicks will be placed in new or cleaned and disinfected containers which bear the name and address of the establishment of origin.

Note to exporter: The day-old chicks should be transported in containers which meet the following:

- Allow for proper ventilation
- Clean and disinfected
- Allow for visual observation
- Appropriate for the animals being exported
