

## **Argentina - Important information regarding trade bans and other restrictions**

### **Poultry products:**

#### Avian Influenza:

In the event of an official report by the United States of an incident of notifiable avian influenza, Argentina's SENASA may impose restrictions for the importation of fresh and fresh frozen poultry products.

Due to the recent confirmed findings of highly pathogenic avian influenza (HPAI) in the United States,

the following restrictions apply to the following commodities:

For [Thermoprocessed inedible egg derivatives](#), poultry from any area under Federal quarantine for HPAI is ineligible for export to Argentina. Please inquire with the pertinent Service Center to determine the quarantine zones and dates of ineligibility.

For [Thermoprocessed poultry products and by-products](#), poultry from the entire United States is ineligible for export to Argentina effective February 8, 2022.

For [Poultry Cartilage for Pharmaceutical Industry](#): Frozen Poultry Cartilage, poultry from the entire United States is ineligible for export to Argentina effective February 8, 2022.

For [Poultry Cartilage for Pharmaceutical Industry](#): Heat Processed Poultry Cartilage and/or poultry Cartilage Extracts, Counties listed above are ineligible for export to Argentina on the effective dates.

Even though Argentina may not have imposed restrictions, APHIS endorsing officials should review the restrictions and verify the relevant AI attestations prior to endorsing certificates under these protocols.

Velogenic Newcastle Disease (vND):

In the event of an official report by the United States of an incident of Newcastle disease, Argentina's SENASA may impose restrictions for the importation of fresh and fresh frozen poultry

products that have not been heat treated, notably frozen poultry cartilage.

No vND restrictions are currently in existence for the following products:

Thermoprocessed poultry products and by-products

**Rabbit products:**

Argentina SENASA advised on April 26, 2010, that animal products from rabbits are restricted unless they have received an appropriate treatment to inactivate rabbit hemorrhagic disease virus.

We will continue to provide updates as restrictions are placed or lifted. Please do not hesitate to contact your [local VS Service Center](#) if you have any additional questions or concerns.
