

Animal Health Requirements of Brazil for Bovine Gelatin (Bovine Bone Derived) from the United States

Bovine gelatin exported to Brazil must be accompanied by an animal health certificate in English and Portuguese issued by the Official Veterinary Service of the exporting country. The requirement for authentication by the Brazilian Consular Authority no longer exists for animal products.

The following certification statements on Veterinary Services Form 16-4, in addition to the statement preprinted on the form “This is to certify that rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, and contagious bovine pleuropneumonia do not exist in the United States of America.”

This office has on file a notarized affidavit from [name of company] verifying the accuracy of the statements below:
