

Poultry Fat & Oil for Animal Consumption to Colombia

This document provides the requirements and certification statements for the exportation of poultry fat and oil for animal consumption to Colombia. It is the exporter's responsibility to confirm prior to shipment that the product will be allowed entry with the issued certification.

EXPORT REQUIREMENTS

The bilingual certification statements below should be provided in the "Additional Declarations" section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS Form 16-4A as needed. A notarized affidavit from the manufacturer is required to support the statements as referenced on the export certificate issued by APHIS Veterinary Services (VS). Questions regarding the preparation of this affidavit or the preparation or submission of the VS Form 16-4 should be submitted to the pertinent [VS Service Center](#).

The product description ("Product" box on the VS Form 16-4) should include the species of origin for all animal-origin ingredients.

CERTIFICATION STATEMENTS

1. The U.S. has in place an avian influenza surveillance program that meets or exceeds the recommendations of the World Organization for Animal Health (OIE). / *Los Estados Unidos han implementado un programa de vigilancia de la influenza aviar que cumple o supera las recomendaciones de la Organización Mundial de Sanidad Animal (OIE).*
2. Product storage and transport conditions are subject to applicable U.S. laws and regulations requiring sanitary handling of the product. / *Las condiciones de almacenamiento y transporte del producto están sujetas a leyes y regulaciones aplicables de los EE. UU. que requieren la manipulación sanitaria del producto.*

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below. / *Esta oficina tiene en el archivo una declaración jurada notariada de [nombre de la empresa] verificando la exactitud de las declaraciones a continuación.*

3. The product was heat treated in a manner sufficient to inactivate the viruses of avian influenza and Newcastle disease. / *El producto se trató térmicamente de manera suficiente para inactivar los virus de la influenza aviar y la enfermedad de Newcastle.*
4. The product originated in the United States of America, or was legally imported. / *La grasa aviar es originaria de los Estados Unidos de America, o fue importada legalmente.*
5. The product is considered fit for animal consumption. / *El producto se considera apto para el consumo animal.*
6. The product was manufactured in an establishment under oversight of the corresponding competent authority. / *El producto se elaboró en un establecimiento que se encuentra bajo la supervisión de la autoridad competente correspondiente.*
7. The product originates from a rendering plant(s) that 1) renders only poultry; or 2) uses a dedicated line (i.e., avian materials only) to ensure the product is not cross-contaminated with non-avian materials. [Note: include only applicable statement, either 1 or 2.] / *El producto se origina de plantas de rendering que [1)] procesan solo aves; o [2)] utilizan líneas dedicadas (solo material aviar) que garantiza que no hay contaminación cruzada con otros materiales de origen no aviar. [Incluir según el caso solo el 1 o 2.]*
