

Danish Import Permits

Denmark requires the Danish importer to obtain an import permit (from the Danish Veterinary and Food Administration) for the import of almost all animal-origin commodities.

If government certification is required for the import of the commodity, the import permit will detail the requirements.

For more information on obtaining import permit, the Danish importer may contact:

The Danish Veterinary and Food Administration

Head Office

Stationsparken 31-33

DK 2600 Glostrup

Tel. +45 72 27 69 00
