

Dominican Republic - Important information regarding trade bans and other restrictions

States with current restrictions for export of raw products containing poultry origin ingredients include:

- NONE (South Carolina restrictions lifted with an effective date of Aug 5, 2020)

Products containing poultry origin materials which undergo a heat treatment are eligible for export from any of the states listed above, but must be accompanied by a VS Animal Product Export Certificate VS Form 16-4 with a statement under "Additional Declarations" indicating the following:

"The product has been subject to thermal process with temperatures above 70°C for at least 30 minutes or a treatment that exceeds these parameters"
