

**Processed animal protein derived from farmed insects (not including pet foods or products for human consumption)**

The European Union (EU) requires consignments of processed animal proteins derived from insects (not including pet foods or products for human consumption) to be accompanied by the following certificate, which is **not** endorsable by APHIS Veterinary Services at this time:

CHAPTER 1a

**Health  
certificate**

*For processed animal protein derived from farmed insects not intended for human consumption, including mixtures and products other than petfood containing such protein, for dispatch to or for transit through (2) the European Union*
