

# Dairy for Human Consumption Products Transiting the EU

- This document refers to products intended for human consumption only transiting the EU.
- Products must also be accompanied by all certifications required by the pertinent government authorities of the final destination.
- APHIS endorsement of this certificate is required if the port of entry into the EU is in Belgium, the UK or Ireland. Otherwise, AMS or APHIS may endorse this certificate. However, if AMS or VS endorsement of other certification is required by government authorities of the final destination, then that respective agency should provide this certification as part of one certificate for the shipment.

When preparing the certificate:

- The county and territory code of the United States is “US.”
- Line 9.2 should be completed as indicated below: (as only the “Milk-HTB” certificate is appropriate for US origin dairy products for human consumption):

“9.2 complies with the relevant animal health conditions for the products concerned as laid down in the animal health attestation in section 9 of the model certificates ~~[Milk-RM]~~ / ~~[Milk-RMP]~~ / [Milk-HTB] / ~~[Milk-HTC]~~<sup>(3)</sup> in Part 2 of Annex II to Commission Decision [2004/438/EC\*];”

Note- all “cross-outs” should be initialed by the certificate endorser.

Statements 9.3 and 9.4 should not be completed.

See below the “**ANIMAL HEALTH CERTIFICATE for milk and milk-based products, for [transit]/[storage] in the European Community**”:
