

## Gambia – Ban on Poultry Products

APHIS has received notification that the Republic of Gambia has placed a ban on the import of some poultry products from the United States.

APHIS is seeking additional information on the ban (e.g. scope, date of implementation etc.). However, until we are able to obtain this information, please recommend all U.S. exporters of poultry products to the Republic of Gambia confirm their products will be permitted entry into the country **prior** to shipping.

I would encourage exporters of poultry products or products containing poultry to obtain a copy of a valid import permit, issued by the appropriate Gambian Ministry, to confirm the import conditions and authorization for entry in the Republic of Gambia.
