

NON-ANIMAL ORIGIN ANIMAL FEED PRODUCTS

The certificate for non-animal origin animal feed products exported to India may only be endorsed for feed products intended for feeding to animals. No additional certificate or certifications may be endorsed by Veterinary Services for these materials exported to India.

As always, the exporter should have their importer confirm with the appropriate officials within the Indian government prior to shipment that the certificate meets all necessary requirements.

The referenced affidavit must be provided by the **manufacturer** of the exported product, and signed by an official working for the manufacturer who has first-hand knowledge of the accuracy of the statement. The affidavit must be presented to the endorsing Veterinary Services office with the certificate, but does not become part of the certificate nor need to be provided to India.
