

**Veterinary Certificate for Materials for Animal Consumption Containing No Animal Origin Ingredients other than Gelatin, Vitamin D3, Dicalcium Phosphate, Milk Products, and/or Animal Fat (other than Bovine Fat)<sup>1</sup>**

This is to certify that:

This office has on file a notarized affidavit from [insert name of company here] verifying the accuracy of the statements below. I, the endorsing official listed below, have read the notarized affidavit referenced above, and to the best of my knowledge and belief these statements are true.

The product described below contains no animal origin ingredients other than: (select all that apply):

1. Purified vitamin D3 [For feed or supplements exported in oil form or for feed or supplements containing animal-origin Vitamin D3 in addition to other animal-origin ingredients];
2. Gelatin derived exclusively from swine [For feed or supplements (intended for consumption by animals other than cattle, swine, goats, sheep, chickens, deer, quail, honey bees, or fish) containing porcine-origin gelatin)];
3. Gelatin prepared exclusively from hides and skins [For feed or supplements (intended for consumption by animals other than cattle, swine, goats, sheep, chickens, deer, quail, honey bees, or fish) containing gelatin derived from bovine-origin hides or skins];
4. Gelatin prepared in accordance with the following procedures: Skulls and vertebrae (excluding tail vertebrae) have been excluded. The bones have been subjected to a process which includes all the following steps: (a) pressure washing (degreasing), (b) acid demineralization, (c) prolonged alkaline treatment, (d) filtration, and (e) sterilization at 138°C for a minimum of 4 seconds [For feed or supplements (intended for consumption by animals other than cattle, swine, goats, sheep, chickens, deer, quail, honey bees, or fish) containing gelatin derived from bovine bones];
5. Gelatin manufactured in a process completely separated from the process for manufacturing animal origin materials other than hides/skins (gelatin produced on a processing line dedicated to only handling hides/skins) [For feed or supplements (intended for consumption by cattle, swine, goats, sheep, chickens, deer, quail, honey bees, or fish) containing hide-derived gelatin];
6. Gelatin is prepared in accordance with the following procedures: Skulls and vertebrae have been excluded. The bones have been subjected to a process which includes all the following steps: (a) pressure washing (degreasing), (b) acid demineralization, (c) prolonged alkaline treatment, (d) filtration, and (e) sterilization at 138oC for a minimum of 4 seconds [For feed or supplements (intended for consumption by cattle, swine, goats, sheep, chickens, deer, quail, honey bees, or fish) containing gelatin derived from bones];
7. Dicalcium phosphate with no trace of fat or protein [For feed or supplements containing animal-origin dicalcium phosphate];
8. Milk-based ingredients [For feed or supplements containing milk-based ingredients in addition to other animal-origin ingredients- in these cases the "Veterinary Certificate for raw milk and milk products from cloven-hoofed animals to be exported to Japan from the United States for animal consumption

---

<sup>1</sup> This certificate is not for extruded or retort processed pet foods.

(not including extruded or retort processed pet foods) also containing animal-origin materials other than those derived from milk/milk products” must be attached as additional pages to this certificate];

\_\_\_ 9. Animal fat (other than fish oil) manufactured in compliance with the following conditions [For feed or supplements containing animal-origin fats (intended for consumption by animals other than cattle, goats, sheep, or deer)]:

- A. Maximum level of insoluble impurities of fat is less than 0.15% in weight; AND
- B. Fat is made from raw material which does not contain:
  - a) Head, distal ileum, spinal cord and vertebral column of cattle; AND
  - b) Cattle which did not pass FSIS slaughter examination; AND
  - c) Cattle which have been found to be BSE-positive; and/or

\_\_\_ 10. Fish oil.
