Tennessee	All production dates.
Texas	Product produced prior to October 7, 2004
Virginia	Product produced on or after June 15, 2007 but before November 11, 2007
West Virginia	Product produced between March 10, 2007 and August 2, 2007

****Fresh poultry products are believed to require certification statements that they did not transit “banned” states during the time periods identified above.**

Banned products include blown egg shells for ornamental purposes- even if the shells are disinfected or otherwise treated.

KNOWN EXCEPTIONS TO BAN-

- Finished, packaged, shelf-stable dry (“crunchy” or hermetically-sealed) pet food is not subject to these bans.
- Feathers (special certification required- may be required to be fumigated at port of entry).

II. Bovine Spongiform Encephalopathy Bans

The only exceptions to the following bans are the items with protocols listed on the previous page (items that meet all requirements of those protocols).

All products derived from cattle, sheep, goats, & products are prohibited.

Also prohibited regardless of species of origin (these materials are prohibited import even if derived from animals other than ruminants): bone meal, meat meal, meat-and-bone meal, blood meal, blood products (other than those used for cosmetics, pharmaceuticals, medical devices and specific research or experiment), skin meal (including leather meal), feather meal, hoof meal, horn meal, offal meal, hydrolyzed protein, fish meal, animal fat/oil, powdered animal fat/oil, greaves, dicalcium phosphate, gelatin, collagen, ossein, or any products containing these items which may be used as livestock feed or fertilizers.
