

## Processed Egg Products for Animal Feeding for Export to Mexico

The requirements below pertain to processed egg products that are being exported to Mexico for industrial uses and/or animal feeding.

Please note that Mexico SENASICA requires certain traceability information for each product lot of processed egg products for industrial uses and/or animal feeding. The lot number should be listed on the official animal health certificate. For each lot, the production date, the packing or shipment date, and an expiry date should be presented in a supplemental declaration from the exporting company. This exporter's declaration must be cross referenced to the certificate, and show lot numbers as well as the name of the official, their position within the company (acceptable examples: owner, president, quality control manager) and signature. The original and a copy of the supplemental declaration are required at the time of presentation of the product.

Please note that the import requirements sheet for this commodity stipulates that the Mexican border officials will verify lot numbers and quality control documentation that is presented at the time of presentation.

The following certification statements are required on the Export Certificate for Animal Products (VS Form 16-4) for processed egg products intended for animal feeding for to Mexico. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.
