

Products Derived from Peritoneal Fluid

The Netherlands will not accept products derived from peritoneal fluid on the Chapter 4(C) or 4(D) Certificates.

Prior to importing any materials derived from peritoneal fluid, the Dutch importer in the Netherlands must apply to Dutch authorities for an import permit.

For more information on obtaining import permits, the Dutch importer may contact import@vwa.nl .

For more information on the export of derivatives from rodent and non-human primate peritoneal fluid, please go back to the previous screen and select: [Rodent and non-human primate materials for technical purposes](#)
