

Determining Which Certification Requirements Apply

Exporters should always have their importers confirm prior to shipment that the consignment will be allowed entry with only the documentation that will accompany the consignment. If there is any doubt regarding the requirements for a consignment, or when requirements are not listed, the U.S. exporter should have the Norwegian importer email the Norwegian border inspection post (BIP) through which the consignment is likely to enter Norway with a description of the proposed import including the animal-origin contents, and the intended use of the material in Norway. The Norwegian government will respond to the importer in writing. The U.S. exporter should then obtain that response from the importer, and provide it and a translation of it (including the original email question) to their local [Veterinary Services service center](#). The email addresses for the Norwegian BIPS are below (starting on the next page).

Norwegian Border Inspection Posts (BIP) and Inspection Centres (IC)

Border Inspection Posts and Inspection centres	Address / E-mail address	Telephone-number +47	Fax-number +47	Products (see explanatory notes on last page)
