- North Carolina:
  - Union County on or after March 12, 2020
  - Anson County on or after March 12, 2020
- South Carolina:
  - Chesterfield County on or after March 17, 2020

**Newcastle Disease:**

USDA confirmed a case of virulent Newcastle disease (vND) in commercial flocks various counties and states. APHIS should discontinue issuing certificates for product from the affected Counties using the IREG protocols below:

**Animal feeds and food: Rendered Poultry Meals**

**Animal feeds and food: Processed egg products for animal feeding**

Restricted Area:
- California
  A. Los Angeles County, California on or after September 25, 2018 and on or before January 9, 2020 are ineligible.
B. San Bernardino County, California, on or after May 24, 2018 and on or before February 24, 2020 are ineligible.
C. Riverside County, California, on or after June 30, 2018 and on or before February 24, 2020 are ineligible.
D. Ventura County, California, on or after August 15, 2018 and on or before September 20, 2018 are ineligible.

- Utah
  A. Utah County, Utah on or after January 17, 2019 and on or before August 18, 2019 are ineligible.
- Arizona
  A. Coconino County on or after April 1, 2019 and on or before November 10, 2019 are ineligible

SENASA recommends in order to minimize difficulties as to product eligibility that health certificates for shipments of poultry products be accompanied an addendum that specifies the location of the origin flocks.

APIE recommends that an import permit should be requested for any heat-treated poultry products for export to Peru from any affected state.
