

Determining Which Certification Requirements Apply

Exporters should always have their importers confirm prior to shipment that the consignment will be allowed entry with only the documentation that will accompany the consignment. If there is any doubt which requirements noted under the [European Union](#) a consignment will fall, or when requirements are not listed, the U.S. exporter should have the Slovenian importer contact the pertinent border inspection post or email the central Slovenian authorities gp.uvhvvr@gov.si with a description of the proposed import including the animal-origin contents, and the intended use of the material in Slovenia. The Slovenian government will respond to the importer in writing. The U.S. exporter should then obtain that response from the importer, and provide it and a translation of it (including the original email question) to their local [Veterinary Services service center](#).
