

Lactose for Pharmaceutical Use

This document pertains to the export of lactose intended for pharmaceutical purposes only. Lactose intended for any other purpose should not be certified using this protocol, and exporters should refer to the information provided under the IREGs posting for “Dairy – milk and milk-based products for human consumption” for more information.

The following certification statement should be provided in the Additional Declarations section of the Export Certificate for Animal Products VS Form 16-4. The exporter should have their importer confirm with the appropriate officials within the Turkish government prior to shipment that the certificate will be accepted. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below:

The product is intended for pharmaceutical use.
