

FRESH MILK AND MILK PRODUCTS FOR HUMAN CONSUMPTION

All dairy shipments comprised of the following HS codes arriving in Taiwan after May 1, 2019 require an export certificate from the Agricultural Marketing Service (AMS):

Product Code	Product Name
0401	Milk and cream, not concentrated nor containing added sugar or other sweetening matter
0402	Milk and cream, concentrated or containing added sugar or other sweetening matter
0403	Buttermilk, curdled milk and cream, yogurt, kefir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavored or containing added fruits, nuts or cocoa
0404	Whey, whether or not concentrated or containing added sugar or other sweetening matter; products consisting of natural milk constituents, whether or not containing added sugar or other sweetening matter, not elsewhere specified or included
0405	Butter and other fats and oils derived from milk; dairy spreads
0406	Cheese and curd
9806	Liquid milk (incl. curd) of Division Nos. 04011010, 04011020, 04012010, 04012020, 04014010, 04014020, 04015010, 04015020, 04029910, 04029920, 04029992, 04039029, 04039040, 04039059, and 04039090; Milk (other than condensed milk & goat's and sheep's milk) of Division Nos. 04049910, 04029920, and 04029992

In addition, exporters of the dairy commodities for human consumption reflected in the Product Codes/Names below will also need to obtain an export certificate from APHIS as per the guidance below.

For assistance or questions in obtaining the AMS certificate, please visit the following AMS website:

<https://www.ams.usda.gov/services/imports-exports/dairy-exports/dairy-sanitary-certificates>

These requirements pertain to fresh milk and milk products being exported to Taiwan for human consumption. All export certificates for fresh milk or milk products for human consumption to Taiwan dated on or after January 17, 2012 must meet these requirements.

NOTE:

- Shelf-stable dairy products for human consumption – products where are treated by ultra-high temperature sterilization (UHT) and packed in hermetically sealed containers, including containers made of metal, glass, retort pouches, plastic, laminated materials, but which do not contain any preservatives, are believed to be excluded from animal quarantine requirements and therefore do not need to be accompanied by a sanitary export certificate. As always, exporters are responsible for verifying the requirements of the importing country.
- The list of specific commodities that are covered under “fresh milk and milk products” are listed below:

Product Code	Product Name
0401.10.10.00-1	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, not exceeding 1%
0401.10.90.00-4	Cream and other milk, not concentrated and unsweetened, of a fat content, by weight, not exceeding 1%

FRESH MILK AND MILK PRODUCTS FOR HUMAN CONSUMPTION

0401.20.10.00-9	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 1% but not exceeding 6%
0401.20.90.00-2	Cream and other milk, not concentrated and unsweetened, of a fat content, by weight, exceeding 1% but not exceeding 6%
0401.40.10.00-5	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 6% but not exceeding 10%
0401.40.90.00-8	Cream and other milk, not concentrated and unsweetened, of a fat content, by weight, exceeding 6% but not exceeding 10%
0401.50.10.00-2	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 10%
0401.50.90.00-5	Cream and other milk, not concentrated and unsweetened, of a fat content, by weight, exceeding 10%
0402.99.10.00-4	Fresh milk, containing added sugar or other sweetening matter
9806.10.00.11-3	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, not exceeding 1%, of Item No. 0401.10.10.00
9806.10.00.21-1	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 1% but not exceeding 6%, of Item No. 0401.20.10.00
9806.10.00.33-7	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 6% but not exceeding 10%, of Item No. 0401.40.10.00
9806.10.00.35-5	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 10%, of Item No. 0401.50.10.00
9806.20.00.10-2	Fresh milk, containing added sugar or other sweetening matter, of Item No. 0402.99.10.00

GENERAL INSTRUCTIONS

1. A VS Form 16-4 (Export Certificate for Animal Products) must be used to certify fresh milk and milk products for human consumption for export to Taiwan. The VS Form 16-4A continuation page maybe needed. Exporters are advised to follow the general instructions on the use of the VS 16-4, 16-4A, and combined 16-4/16-4A provided on the [home page](#) of the International Animal Products Regulations (IREGS) under the heading “VS Export Certificates and Instructions.”
2. The VS Form 16-4 for the export of fresh milk and milk products to Taiwan for human consumption will be endorsed by official veterinarians within the pertinent APHIS Veterinary Services (VS) Service Center. VS Service Centers can provide assistance to exporters on preparing notarized affidavits and address any other general questions about the export certification process, including how certificates should be submitted for endorsement.
3. Exporters requesting export certificates for fresh milk and milk products to Taiwan must be authorized by the Food and Drug Administration (FDA) as the competent authority, to produce dairy products for interstate commerce and international trade. This authorization is often given by State or local agencies acting on behalf of FDA. Exporters should be prepared to provide documentation* that they are authorized to produce dairy products for commerce, if requested. *This documentation may be from FDA or a State or local government agency.

FRESH MILK AND MILK PRODUCTS FOR HUMAN CONSUMPTION

4. Exporters are advised to be sure they have export certificates endorsed PRIOR to shipping products. Taiwan will NOT accept shipments of any type of product if the export (sanitary) certificate is endorsed AFTER the date of shipment.

PRODUCT ATTESTATIONS

Additional information required by the government of Taiwan for fresh milk and milk products for human consumption will be included in the 'Additional Declarations' section of the VS Form 16-4. These statements will be endorsed by APHIS VS on the basis of a notarized affidavit provided by the exporting company with the exact statements to be endorsed.

The following must be included in the 'Additional Declarations' section of the VS Form 16-4:

[For dairy products derived from sheep or goats] No outbreak of peste des petits ruminants has occurred for at least 21 days prior to export in the United States.

[For dairy products derived from cattle] No outbreak of lumpy skin disease has occurred for at least 90 days prior to export in the United States.

This office has on file a notarized affidavit from *[insert company name]* verifying the accuracy of the statements below.

1. The certified milk or milk products described below were manufactured by *[insert name(s) and address(es) of manufacturing facility(ies)*]* on the following dates: *[insert dates or range of dates of product manufacture]*.
2. The above manufacturing facility(ies) is/are approved by the competent authority to produce milk or milk products.
3. The products were processed, handled, stored, and transported in accordance with U.S. laws and regulations to prevent contamination of finished products with raw materials and/or animal disease pathogens.

OR

This office has on file a notarized affidavit from *[insert company name]* verifying the accuracy of the statements below.

1. The certified milk or milk products described below were manufactured by *[insert name(s) and address(es) of manufacturing facility(ies)*]* on the following dates: *[insert dates or range of dates of product manufacture]*.
2. The above manufacturing facility(ies) is/are approved by the competent authority to produce milk or milk products.
3. The products were processed, handled, stored and transported in accordance with U.S. laws and regulations to prevent contamination of finished products with raw materials and/or animal disease pathogens.

FRESH MILK AND MILK PRODUCTS FOR HUMAN CONSUMPTION

[For dairy products derived from sheep or goats] 4. The dairy products have undergone a World Organisation for Animal Health (WOAH) recommended treatment to mitigate PPR.

[For dairy products derived from cattle] 4. The dairy products have undergone a World Organisation for Animal Health (WOAH) recommended pasteurization or other combination of control measures to mitigate LSD.

*Also insert the following declaration as 1a. if the packages of the certified milk or milk products do NOT contain on the label the exact same company name and address of the manufacturing facility(ies) as noted above:

[Insert name and address of manufacturing facility] also produced the products included in this consignment labeled with the following company information [insert company name(s) and address(es) that appear on the packages in the consignment].

The product manufacturers (names and addresses) must be identified on the certificate. This information should match the name and address of the companies identified on the package labels. IF there are packages in the consignment labeled differently (e.g., a distributor name/address) – the additional certification statement as noted above MUST be provided. Use a VS Form 16-4 continuation page if needed (the combined VS Form 16-4/16-4A) and be sure the pages of the certificate are numbered (e.g., page 1 of 2, page 2 of 2). The notarized affidavit line must also precede any information provided on the continuation page.

Use a range of dates when there are multiple production dates. If a range of dates is used, do NOT include dates into the future. The date or range of dates should not include any date later than the date the certificate is endorsed.

ADDITIONAL ADMINISTRATIVE INFORMATION

Port: Identify the U.S. port from which the shipment will depart the United States.

Certificate Number/Date: Do NOT complete these sections. They are for official use only.

Typed Name and Title of Endorsing Official: Leave blank. This information will be completed by the endorsing VS Service Center.

Name and Address of Exporter/Name and Address of Consignee: Enter the relevant information about the exporter and importer (consignee).

Product (type of product, quantity, unit of measure, and animal product species of origin): Enter the product name(s), including the species of origin (e.g. bovine). Include the number and description of packages (type of packaging, weight of packages). For product in individual packages, a “total shipment weight” alone is not sufficient.

Identification: Enter pertinent information sufficient to link the products being exported with the certificate (e.g. container numbers, lot numbers, or other similar identifying information appearing on other export documents accompanying the shipment).

Conveyance: Enter the relevant information.
