

Summary of Studies Supporting USDA Product Licensure

Establishment Name	Boehringer Ingelheim Animal Health USA Inc.
USDA Vet Biologics Establishment Number	124
Product Code	16N1.R3
True Name	Marek's Disease-Newcastle Disease Vaccine, Serotype 3, Live Marek's Disease Vector
Tradename(s) / Distributor or Subsidiary (if different from manufacturer)	NEWXXITEK HVT+ND AF - No distributor specified
Date of Compilation Summary	October 29, 2020

Disclaimer: Do not use the following studies to compare one product to another. Slight differences in study design and execution can render the comparisons meaningless.

124 16N1.R3 Page 1 of 11

Study Type	Efficacy
Pertaining to	Marek's Disease Virus Serotype 3
Study Purpose	Demonstrate efficacy against Marek's disease
Product Administration	1 dose (0.05 mL) by in ovo route
Study Animals	Day-old chicks divided into 3 groups Group 1 vaccinated with product and challenged
	Group 2 sham vaccinated and challenged (control)
	Group 3 sham vaccinated non-challenged (control)
Challenge Description	Serotype-1 (SR-1) GA 22 strain given 7 days after vaccination
Interval observed after challenge	The birds were observed daily for clinical signs for 7 weeks.
Results	Vaccinates and controls were evaluated in terms of Marek's disease clinical signs and/or grossly observable lesions per the criteria in 9 CFR 113.330(c)(4) & (5). Birds with clinical signs and/or observable lesions: Group 1: 5/35 Group 2: 29/34 Group 3: 0/34 Requirements of 9 CFR 113.330(c)(4) & (5) were met. Raw data on attached page
USDA Approval Date	December 23, 2013

Study Type	Safety										
Pertaining to	ALL	Demonstrate safety of product under typical use conditions									
Study Purpose Product		1 dose by either the (0.05 mL) in ovo or (0.2 mL) subcutaneous (SQ) route									
Administration	j										
Study Animals		Poultry, 18 day-old embryos or day-old chicks									
		25,506 were vaccinated by in ovo route, 41,900 were vaccinated by subcutaneous									
		oute and 136,459 kept as controls. Animals were observed daily for mortality through 21 days after vaccination.									
	2 i days alle	er vaccination	•
