COUNTRY: United States Non-commercial movement into a Member State from a territory or third country of dogs, cats or ferrets in accordance with Article 5(1) and (2) of Regulation (EU) No 576/2013

11.	Health information	II.a.	Certificate reference No	II.b.				
	- does not have to be renewed on an animal, which following that test with satisfactory results, has been revaccinat							
	against rabies within the period of validity of a previous vaccination. A certified copy of the official report from the approved laboratory on the results of the rabies antibody test referred to in point							
	II.3.1 shall be attached to the certificate.							
(9)	By certifying this result, the official veterinarian confirms that he has verified, to the best of his ability and where necessary with contacts with the laboratory indicated in the report, the authenticity of the laboratory report on the results of the antibody titration test referred to in point II.3.1.							
(10)	In conjunction with footnote (6), the marking of the animals concerned by the implantation of a transponder or by a clearly readable tattoo applied before 3 July 2011 must be verified before any entry is made in this certificate and must always precede any vaccination, or where applicable, testing carried out on those animals.							
(11)	precede any vaccination, or where applicable, testing carried out on those animals. The treatment against <i>Echinococcus multilocularis</i> referred to in point II.4 must:							
	<ul> <li>be administered by a veterinarian within a period of not more than 120 hours and not less than 24 hours before the time of the scheduled entry of the dogs into one of the Member States or parts thereof listed in Annex to Implementing Regulation (EU) 2018/878;</li> </ul>							
	<ul> <li>consist of an approved medicinal product which contains the appropriate dose of praziquantel or pharmacologically active substances, which alone or in combination, have been proven to reduce the burden of mature and immature intestinal forms of <i>Echinococcus multilocularis</i> in the host species concerned.</li> </ul>							
(12)	The table referred to in point II.4 must be used to document the details of a further treatment if administered after the date the certificate was signed and prior to the scheduled entry into one of the Member States or parts thereof listed in Annex to Implementing Regulation (EU) 2018/878.
