Holding or Retention Ponds on Site? _____ (Y/N)

Is Holding or Retention Pond Treated? _____ (Y/N) **Describe:** _____

Standing Water / Puddling / Poor Drainage in Nursery? ____ (Y/N)

Describe Locations of Standing Water: _____

Water Runoff into Streams and Rivers? _____ (Y/N)

Proximity to Environ. w/ Hosts: ☐ Immediate (w/in 100 feet) ☐ Nearby (more than 100 feet) ☐ None visible ☐ Unknown

Sample Information (most specific taxonomic level possible, e.g. *Camellia japonica* 'Silver Flame')

	Plant Name (Genus, Species, Cultivar or Variety) or Water or Soil Bait	Sample ID
Sample 1:	_____	_____
Sample 2:	_____	_____
Sample 3:	_____	_____
Sample 4:	_____	_____
Sample 5:	_____	_____
Sample 6:	_____	_____
Sample 7:	_____	_____
Sample 8:	_____	_____
Sample 9:	_____	_____
Sample 10:	_____	_____

Nursery naming conventions

Use the Full Proper Business Name as is used for the mailing address of the company for all nurseries

- For large businesses with multiple locations and headquarters offices (i.e. Monrovia Nursery Company)
  - Use the company's method of distinguishing each location where possible (i.e. Store #212) at the end of the name
  - Use IPHIS Hierarchy to tie individual locations back to a central location (i.e. Corp. Headquarters)
- For smaller businesses with multiple locations but no central headquarters
  - If the business has an internal way of distinguishing store (i.e. Westside, Eastside) use that method at the end of the location name
  - If the business has no designation method
    - Businesses with stores in multiple states/cities, use state/city at the end of the location name
    - Businesses with stores within the same city, use street name at the end of the location name
- Do not include program name, year or a person's name or title as part of the location name
- If more than one business shares the same street address either use the suite number in the address or use the 9 digit postal code in the zip code field (i.e. 12345+6789). Do not include information beyond the business name in the location name.
