

**Request for completion of USDA identity declaration**

Australia requires USDA to complete a separate identity declaration, based on the information provided by the two accredited veterinarians in the first and second accredited veterinarian identity declarations. The exporter must provide you with the VEHCS endorsed certificate number for both accredited veterinarian declarations that were completed.

After you submit this request form in VEHCS, USDA will complete and upload the endorsed USDA identity declaration in VEHCS and email it directly to Australia. Once this certificate is marked Completed in VEHCS, you/exporter may then proceed to the next step in Australia's step-by-step guide.

A copy of the endorsed USDA identity declaration must be retained and attached to the export health certificate that must accompany the pet during travel to Australia.

**First accredited veterinarian identity declaration**

VEHCS endorsed certificate number:

---

**Second accredited veterinarian identity declaration**

VEHCS endorsed certificate number:
