

## Export to Brazil: Spray Dried Blood Products for Animal Feeding

This protocol is intended to cover spray dried porcine blood products for animal consumption.

### **General Instructions for Exporters:**

A1) Use the fillable certificate “ZOOSANITARY CERTIFICATE FOR EXPORTS OF SPRAY DRIED PORCINE BLOOD PRODUCTS FOR ANIMAL FEEDING” available on the main Brazil IREG page.

The manufacturer should prepare a notarized affidavit with the required certification statements noted under the notarized affidavit line in the “Declarations” section of the certificate. If assistance is needed in preparing a proper notarized affidavit, please contact the local VS Service Center that will be endorsing the export certificate.

A2) Instructions on how to fill out the shipment information. Numbering for page 1 Enter full name and address of exporter (entity in the U.S. exporting the product)

1. Enter full name and address of exporter (entity in the U.S. exporting the product)
2. Enter full name and address of importer (entity receiving the product in Brazil)
3. This text is pre-entered on IREGS certificate.
4. This text is pre-entered on IREGS certificate.
5. Enter the country and ISO code in English and Portuguese if the shipment transits another country.
6. This text is pre-entered on IREGS certificate.
7. Enter port of exit from the U.S. (place of loading onto the ship or plane). In cases where the port of exit is not known, the location (city/state) of the warehouse from which the consignment is shipped to the port of exit may be utilized. Enter the anticipated date of loading.
8. Enter the port of arrival in Brazil.
9. Select the appropriate box.
10. Select the appropriate box.
11. List the identification of the container and numerical sequence of the seal. For loose cargo, exported in the hold of a ship and aircraft, the name and / or number of the cargo must be mentioned, in addition to including the expression "loose cargo".
12. **NCM Code or HS Code:** Product code (indicates the Mercosur Common Nomenclature - NCM or Harmonized System of the World Customs Organization - HS Code) as accepted by the destination country. The exporter should work with the importer to confirm that the appropriate code is utilized.
13.
  - a. **Name of the product (Include Species):** Please identify the product and scientific name. For example: Porcine spray dried blood (*Sus domestica*)
  - b. **Lot and Production Date:** Insert the number (s) of the lot (s) that make up the product and the date or period of production. The period of production can be filled only if the production dates are sequential. If the dates are not sequential, all production dates must be specified.
  - c. **Number of Packages:** number of packages of the product described.
  - d. **Net weight (Kg):** product weight, in kilograms, discounting the weight of the packaging.

- e. **Total - number of packages:** total number of packages for all products in the shipment.
- f. **Total - Net weight (Kg):** total weight of all products in the consignment, in kilograms, discounting the weight of the package.
- g. Additional pages can be added if more room is needed to list the products.

A3) Declarations Section
