

Certification for export of culture media containing bovine and/or porcine origin materials from the United States to Colombia

The following bilingual certification statements should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS form 16- 4A as needed. A notarized affidavit from the manufacturer is required to support the statements identified below. The exporter is encouraged to verify that the requirements match the expectations of import officials at the port of entry.

Certification Statements:

This office has on file a notarized affidavit from [company name] verifying the accuracy of the statements below / *Esta oficina tiene archivada una declaración jurada notariada de [nombre de la empresa] que verifica la veracidad de las declaraciones a continuación:*

1. The certified product was derived from porcine ingredients and/or from bovine ingredients which are not considered specified risk material for BSE. / *El producto certificado se derivó de ingredientes porcinos y/o de ingredientes bovinos que no se consideran material de riesgo específico para la EEB.*
2. The product was subject to at least one of the following treatments: ultrafiltration or triple filtration at 0.1 µm, or heat treatment of at least 70 degrees Celsius for a minimum 30 minutes, or an equivalent treatment for the inactivation or removal of biological pathogens. / *El producto fue sometido a alguno de los siguientes tratamientos: Ultrafiltración o triple filtración a 0.1 µm, tratamiento térmico de por lo menos 70 grados centígrados durante como mínimo 30 minutos, o un tratamiento equivalente para la inactivación o eliminación de patógenos biológicos.*
3. Precautions were taken following processing to prevent commingling of the product with other animal origin materials. / *Se tomaron precauciones después del procesamiento para evitar la mezcla del producto con otros materiales de origen animal.*
4. The product was packaged in new plastic bags inside plastic containers with tamper-resistant seals to protect the integrity of the product and to prevent possible contamination during shipping. / *El producto fue empacado en bolsas plásticas nuevas adentro de contenedores con cierre hermético a prueba de fugas para proteger la integridad del producto y prevenir posible contaminación durante el embarque.*
