Subject: APHIS Removes Portions of Tate Township and East Fork State Park, Clermont County, Ohio from the Asian Longhorned Beetle (*Anoplophora glabripennis*) Quarantined Area

To: State, Tribal, and Territory Agricultural Regulatory Officials

Effective immediately, the Animal and Plant Health Inspection Service (APHIS) is removing 5.2 square miles from the Asian longhorned beetle (*Anoplophora glabripennis*, ALB) quarantined area in Clermont County, Ohio. The areas include 1.6 square miles of Tate Township and 3.6 square miles of East Fork State Park, south of William H. Harsha Lake and north and west of North Campbell Road. APHIS determined that these areas could be removed from the quarantine after the program completed final surveys of host trees. East Fork Wildlife Area in Williamsburg Township, north of William H. Harsha Lake, and the portion of East Fork State Park that is east of North Campbell Road in Tate Township will remain under quarantine. The remaining portions of Tate Township will also continue to be under quarantine. The attached Federal Order describes the quarantined area removed and includes the associated reference to [7 Code of Federal Regulations \(CFR\) § 301.51 et. seq.](#) that lists the provisions for the movement of ALB-regulated articles.

ALB is a destructive wood-boring pest that threatens 12 species of hardwood trees, including maple, in North America. ALB was first discovered in the United States in New York in August 1996. ALB was later detected in areas of Illinois (1998), New Jersey (2002, 2004), Massachusetts (2008, 2010), Ohio (2011), and South Carolina (2020). After the completion of control and regulatory activities and following confirmation surveys, APHIS declared ALB eradicated in Illinois (2008); Hudson County, New Jersey (2008); Islip, New York (2011); Union and Middlesex Counties, New Jersey (2013); Manhattan and Staten Island, New York (2013); Suffolk and Norfolk Counties, Massachusetts (2014); portions of Batavia, Monroe, and Stonelick Townships, Ohio (2018); and Brooklyn and Queens, New York (2019). Program activities continue in Worcester County, Massachusetts; Nassau and Suffolk Counties in New York; Clermont County, Ohio; and Charleston and Dorchester Counties in South Carolina.

The full lists of ALB-quarantined areas and regulated articles are on the [APHIS Asian Longhorned Beetle webpage](#). APHIS will publish a notice of this change in the Federal Register.

Plant Protection and Quarantine**

FEDERAL ORDER

APHIS Removes Portions of Tate Township and East Fork State Park, Clermont County, Ohio  
from the Quarantined Area for the Asian Longhorned Beetle (*Anoplophora glabripennis*)

DA-2025-11  
March 14, 2025

Effective immediately, the Animal and Plant Health Inspection Service (APHIS) is removing 5.2 square miles from the Asian longhorned beetle (*Anoplophora glabripennis*, ALB)-quarantined area in portions of Tate Township and East Fork State Park, Clermont County, Ohio. APHIS will publish a notice of this change in the Federal Register.

This Federal Order is issued in accordance with the regulatory authority provided by the Plant Protection Act of June 20, 2000, as amended, Section 412(a), 7 U.S.C. 7712(a). The Act authorizes the Secretary of Agriculture to prohibit or restrict the movement in interstate commerce of any plant, plant part, or article, or means of conveyance, if the Secretary determines the prohibition or restriction is necessary to prevent the dissemination of a plant pest within the United States. The regulatory authority provided by 7 U.S.C. 7754 allows the Secretary to issue orders to carry out this provision of the Plant Protection Act. This Federal Order is likewise issued pursuant to the regulations promulgated under the Plant Protection Act found at [7 Code of Federal Regulations \(CFR\) § 301.51 et. seq.](#)

7 CFR § 301.51-3(a) allows the designation of less than an entire state as an ALB-quarantined area only when two criteria are met. First, that the state enforces an intrastate ALB quarantine that is equivalent to the Federal ALB quarantine. In accordance, the Ohio Department of Agriculture confirmed the establishment of an intrastate quarantine for a portion of Clermont County that mirrors the Federal interstate quarantine. Second, that the APHIS Administrator has determined, as in this case, that such a designation is adequate to prevent the artificial interstate spread of this pest.

The APHIS Administrator has determined that quarantined areas in the locations listed above and below no longer need to be regulated to prevent the artificial (human-assisted) spread of ALB after the completion of control and regulatory activities based on the results of negative surveys of regulated host plants within the quarantined area.

The full lists of ALB-quarantined areas and regulated articles are on the [APHIS Asian Longhorned Beetle webpage](#).

For more information, you may contact Kathryn Bronsky at [kathryn.e.bronsky@usda.gov](mailto:kathryn.e.bronsky@usda.gov) or (301) 851-2147.

APHIS appreciates the cooperative relationship with the State of Ohio in the effort to prevent the spread of ALB.

**The land parcels being removed from quarantine in Clermont County, Ohio are as follows:**
