II.	Health info	prmation II.a. Certificate reference No II.b.				
	Parliament a	igned official veterinarian, declare that I have read and understood Regulation (EC) No 1069/2009 of the European and of the Council(fa), and in particular Articles 8 and 10 thereof, and Commission Regulation (EU) No 142/2011(fb), ular Chapter II of Annex XIV thereto, and certify that the petfood described above:				
II.1.	has been pro	has been prepared and stored in a plant approved and supervised by the competent authority in accordance with Article 24 of Regulation (EC) No 1069/2009;				
II.2.	has been pre	epared exclusively with the following animal by-products:				
	(²) either	[- carcases and parts of animals slaughtered or, in the case of game, bodies or parts of animals killed, and which are fit for human consumption in accordance with Union legislation, but are not intended for human consumption for commercial reasons;]				
	(²)and/or	[carcases and the following parts originating either from animals that have been slaughtered in a slaughterhouse and were considered fit for slaughter for human consumption following an ante-mortem inspection or bodies and the following parts of animals from game killed for human consumption in accordance with Union legislation:				
		 carcases or bodies and parts of animals which are rejected as unfit for human consumption in accordance with Union legislation, but which did not show any signs of disease communicable to humans or animals; 				
		(ii) heads of poultry;				
		 (iii) hides and skins, including trimmings and splitting thereof, horns and feet, including the phalanges and the carpus and metacarpus bones, tarsus and metatarsus bones; 				
		(iv) pig bristles;				
	(2)	(v) feathers;]				
	(²)and/or	[- animal by-products from poultry and lagomorphs slaughtered on the farm as referred to in Article 1(3)(d) of Regulation (EC) No 853/2004 of the European Parliament and of the Council(^{2a}), which did not show any signs of disease communicable to humans or animals]				
	(²)and/or	[- blood of animals which did not show any signs of disease communicable through blood to humans or				
		animals, obtained from animals that have been slaughtered in a slaughterhouse after having been considered fit for slaughter for human consumption following an ante-mortem inspection in accordance with Union legislation;]				
	(²)and/or	 animal by products arising from the production of products intended for human consumption, including degreased bone, greaves and centrifuge or separator sludge from milk processing; 				
	(²)and/or	products of animal origin, or foodstuffs containing products of animal origin, which are no longer intended				
	()4.74.07	for human consumption for commercial reasons or due to problems of manufacturing or packaging defects or other defects from which no risk to public or animal health arise;]				
	(²)and/or	[- petfood and feedingstuffs of animal origin, or feedingstuffs containing animal by-products or derived products, which are no longer intended for feeding for commercial reasons or due to problems of manufacturing or packaging defects or other defects from which no risk to public or animal health arise;]				
	(²)and/or	[- blood, placenta, wool, feathers, hair, horns, hoof cuts and raw milk originating from live animals that did not show signs of any disease communicable through that product to humans or animals;]				
	(²)and/or	 aquatic animals, and parts of such animals, except sea mammals, which did not show any signs of diseases communicable to humans or animals; 				
	(²)and/or	 animal by-products from aquatic animals originating from plants or establishments manufacturing products for human consumption; 				
	(²)and/or	[- the following material originating from animals which did not show any signs of disease communicable through that material to humans or animals:				
		(i) shells from shellfish with soft tissue or flesh;				
		(ii) the following originating from terrestrial animals:				
		- hatchery by-products,				
		eggs,egg by-products, including egg shells,				
		(iii) day-old chicks killed for commercial reasons;]				
	(²)and/or	[- animal by-products from aquatic or terrestrial invertebrates other than species pathogenic to humans or				
	(²)and/or	animals;] ———————————————————————————————————				
	()	as referred to in Article 8(a)(iii), (iv) and (v) of Regulation (EC) No 1069/2009 and Category 2 material as				
	(²)and/or	referred to in Article 9(a) to (g) of that Regulation;] [- material from animals which have been treated with certain substances which are prohibited by Council Directive 96/22/EC(^{2b}), the import of the material being permitted in accordance with Article 35(a)(ii) of				
II.3.		Regulation (EC) No 1069/2009;]				
11.3.	(²)either	[was subjected to a heat treatment of at least 90 °C throughout its substance;]				
	(²)or [was produced as regards ingredients of animal origin using exclusively products which had been: (a) in the case of animal by-products or derived products from meat or meat products subjected treatment of at least 90 °C throughout its substance; 					
		(b) in the case of milk and milk based products,
