Blood and blood products from equidae for purposes outside the feed chain

	II.	Health information	II.a. Certificate reference No	II.b.	
		I, the undersigned official veterinarian, declare that I have read and understood Regulation (EC) No 1069/2009 of the European Parliament and of the Council ^(1a) and in particular Article 8(c) and Article 8(d) and Article 10 thereof, and Commission Regulation (EU) No 142/2011 ^(1b) , and in particular Chapter IV of Annex XIII thereto, and certify that the blood or blood products of equidae described above:			
	II.1.	consist of blood or blood products from equidae that satisfy the health requirements below;			
	II.2.	consist exclusively of blood or blood products of equidae not intended for human or animal consumption;			
Part II: Certification	II.3.	have been obtained from animals that originate from the EU Member States or from a third country, territory or part thereof listed in the column 'third countries' lists' of row No 3 of Table 2 in Section 1 of Chapter II of Annex XIV to Regulation (EU) No 142/2011 where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders (<i>Burkholderia mallei</i>), equine encephalomyelitis (all types including Venezuelan equine encephalomyelitis), equine infectious anaemia, vesicular stomatitis, rabies, anthrax;			
Part II: (II.4.	have been derived from blood from equidae, which was collected under the supervision of a veterinarian in slaughterhouses approved in accordance with Regulation (EC) No 853/2004 of the European Parliament and of the Council ⁽³⁾ , in slaughterhouses approved and supervised by the competent authority of the country of collection and in facilities approved and supervised by the competent authority of the country of collection for the purpose of collecting blood from equidae for the production of blood products for purposes other than feeding for farmed animals;			
	II.5.	have been derived from blood which was co	•		
	II.5.1.	which on inspection on the date of blood collection did not show clinical signs of any of the compulsorily notifiable diseases listed in Annex I to Council Directive 2009/156/EC ⁽⁴⁾ , and of equine influenza, equine piroplasmosis, equine rhinopneumonitis and equine viral arteritis listed in point 4 of Article 1.2.3 of the Terrestrial Animal Health Code of the World Organisation for Animal Health (OIE), 2010 edition;			
	II.5.2.	which have been kept for at least 30 days prior to the date of and during blood collection on holdings under veterinary supervision which were not subject to a prohibition order pursuant to Article 4(5) or restrictions for African horse sickness in accordance with Article 5 of Directive 2009/156/EC;			
	II.5.3.	which had no contact with equidae from a holding which was subject to a prohibition order for animal health reasons pursuant to Article 4(5) of Directive 2009/156/EC;			
	II.5.4.	for which the period for the prohibition order referred to in points II.5.2. and II.5.3 has been determined as follows:			
			s susceptible to the disease located on the hoperiod of prohibition must be at least:	olding have been	
		 six months in the case of equidae infected with the 	glanders (<i>Burkholderia mallei)</i> , beginning on the d lisease are slaughtered,	date on which the	
			equine encephalomyelitis of any type, including Vong on the date on which the equidae infected wit		
			tious anaemia, until the date on which, the infectence ne remaining animals have shown a negative hree months apart,		
		 six months from the date of 	f the last recorded case of vesicular stomatitis,		
			f the last recorded case of rabies,		
		- 15 days from the date of th	e last recorded case of anthrax;]		
		slaughtered and the premises v days, beginning on the date on	usceptible to the disease located on the ho vere disinfected, in which case the period of prohi which the animals were slaughtered and the prer here the period of prohibition shall be 15 days;]	ibition must be 30	
	II.6.	blood products come from an establishment or plant approved or registered by the competent authority of the third country meeting the specific conditions set out in Article 23 or 24 of Regulation (EC) No 1069/2009;			
	II.7.	blood products have been produced from blood which fulfils the conditions referred in II.4 and II.5 and		II.5 and	
⁽²⁾ either [has been collected from equidae w since birth if less than three months			ae which have been kept for a period of at least nths old, prior to the date of collection on holdings llection which during that period and the period o	s under veterinary	
		(a) African horse sickness for	or two years;		
			phalomyelitis for a period of at least two years;		
		(c) glanders
