KEY:

"Req" = pre-export testing/ freedom *required* for both "susceptible" and "vector" species

"Req†" = pre-export testing/ freedom *required* for "*susceptible*" species; pre-export testing/ freedom only required if "*vector*" species *cohabitates/ shares water* with a "susceptible" species

This table is based off the following EU regulations/guidances:

Commission Implementing Regulation (EU) 2018/1882 (for pathogens in **blue**)
Commission Implementing Decision (EU) 2021/260 (for pathogens in **green**)
Commission Implementing Regulation (EU) 2021/620 (for EU Member State's health status)
