Certification Statements:

I, the undersigned official USDA accredited veterinarian, certify the following statements:

1. On the day of collection, the donors were found to be in good health and showed no clinical signs of infectious or contagious diseases at the time of collection

2. The country or semen collection center was free from clinical cases of the following diseases for the twelve (12) months prior to collection:

- (i) Vesicular stomatitis virus (VSV)
- (ii) Swine vesicular disease (SVD)
- (iii) African swine fever (ASF)
- (iv) Classical swine fever (CSF)

3. The donors were kept in a collection center where no clinical cases of the following diseases were officially reported for sixty (60) days prior to collection:

- (i) Porcine brucellosis (*Brucella suis*)
- (ii) Rabies
- (iii) Trichinellosis
- (iv) Atrophic rhinitis
- (v) Porcine cysticercosis
- (vi) Transmissible gastroenteritis (TGE)
- (vii) Teschovirus encephalomyelitis
- (viii) Porcine reproductive and respiratory syndrome (PRRS)
- (ix) Tuberculosis
- (x) Porcine epidemic diarrhea (PED)

4. For Swine Brucellosis (*B. suis*), the animals for export:

[O] originate from a state APHIS considers to be officially "Free" of swine brucellosis.

[O] were tested with negative results within 30 days prior to export, using a test described in the WOA Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.
