Certification Statements:

1. The United States is free of foot-and-mouth disease without vaccination, sheep and goat pox, peste des petites ruminants, contagious caprine pleuropneumonia, and Rift Valley fever, in accordance with the WOAHA Terrestrial Animal Health Code.
2. The donor animals were born or legally imported into the United States.
3. During the 12 months prior to collection, the States of origin of the donor animals have not reported/confirmed clinical cases of caprine/ovine brucellosis (*Brucella melitensis*).
4. During the 12 months prior to collection, the farms of origin of the donor animals have been free of clinical cases of scrapie, maedi-visna, caprine arthritis/encephalitis, bluetongue, paratuberculosis, ovine epididymitis, and contagious agalactia.
5. On the day(s) of collection, all the donor animals were in good health and did not show clinical signs of infectious or communicable disease.
6. The semen has been diluted using diluents that do not contain pathogenic organisms and to which antibiotics have been added in accordance with WOAHA Terrestrial Animal Health Code recommendations.
7. The semen straws are individually identified with donor animal and collection identification code.
8. Semen was stored in containers which were new or cleaned and disinfected with a licensed product.
9. The shipping containers will be sealed by USDA accredited veterinarian prior to transportation to the port of embarkation.
10. Semen was not exported prior to the final endorsement of required veterinary health certificate by the competent veterinary authority.
11. The donor animals were tested according to recommendations in the WOAHA Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, with negative results, for the following diseases within 6 months prior to or after semen collection:
 - a. Tuberculosis (*Mycobacterium bovis*), for goats.
Date of test(s): _____
 - b. Contagious epididymitis (*Brucella ovis*), for sheep.
Date of test(s): _____
