**Certification Statements:**

I, the undersigned USDA Accredited Veterinarian, certify to the following statements:

1. The United States has been free from Foot and Mouth Disease without vaccination for a period of at least twelve (12) months immediately prior to the date of flushing and cryo-freezing of the embryos for export.

The United States is free of contagious caprine pleuropneumonia (CCPP) and peste des petits ruminants.

2. Insofar as it has been possible to ascertain, the herd of origin for the embryo donors:

a. Has not had a confirmed case of clinical scrapie in the last three (3) years prior to export of embryos.

b. Has had no clinical cases of maedi-visna (for sheep, only), caprine arthritis encephalitis (for goats, only), vesicular stomatitis, or bluetongue in the last three (3) years prior to export of embryos; OR embryo donors were test negative, as listed below.

c. Has had no clinical cases of Chlamydomphila abortus (enzootic abortion of ewes) in the last two (2) years prior to export of embryos.

d. Has had no clinical cases of bovine brucellosis (Brucella abortus) or contagious epididymitis (Brucella ovis), in the last twelve (12) months prior to export of embryos; OR the donor animals were tested negative using Complement Fixation (CF) or a serum agglutination test with internationally approved antigens for brucellosis, either within six months prior to or six months after the collection of the embryos for export.

e. Has had no clinical cases of anthrax in the last twelve (12) months prior to export of embryos.

4. The donor animals were physically sound, in good health, and free from clinical signs of any WOAHA listed infectious or contagious disease for the species, on the date of embryo collection.

5. The embryos for export originate from a facility that is under the oversight of a USDA Accredited Veterinarian.
