March 2025	37	0	26696
April 2025	35	0	26731
May 2025	46	0	26777
June 2025	45	0	26822
July 2025	40	0	26862

There were 8 surveillance inspections conducted at 8 different sites for a total of 40 fish sampled this month. Samples are targeted to moribund and fresh mortalities. The water temperatures continued to increase in response to warmer air temperatures. The last Category 2b site was emptied of fish during routine harvest. All other sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
