

Research and Diagnostic Samples from Non-Human Primates

Italy does not require any certification for samples from non-human primates that are:

- Embedded on microscope Slides; or
- Suspended in formalin; or
- Suspended in alcohol.

For other samples, Italy requires the: “HEALTH CERTIFICATE for export to Italy of samples (other than processed DNA samples, and ones embedded completely on micro slides or preserved in alcohol or formaldehyde) from non-human primates intended for scientific research.”

Prior to endorsement of the above referenced health certificate, APHIS must inspect the collection facility to verify the pertinent criteria. In addition lab reports as referenced in the certificate will be required for each source animal. For more information, please contact your local Veterinary Services Field Office.
