

Important Information Regarding Trade Bans on Various Products

I. Avian Influenza Bans

Japan currently prohibits the importation of certain poultry products from the below states, depending on the production dates. **Exporters should verify prior to shipment what certification statements are necessary.****

Most poultry products may not be exported from states noted in red below.

Update: On August 22, 2014, MAFF (Japanese animal health authorities) agreed to, for certain products under AMS and FSIS certification, limit LPAI bans to a 10 km radius zone rather than a State-wide zone. [HPAI bans are statewide or countywide.] On September 9, 2014, MAFF agreed to similar changes for certain commodities certified by APHIS. On May 25, 2017, MAFF agreed that, for future LPAI bans, when the 10 km radius zone goes into a border State (not the State with the affected premises), the portion of the 10 km radius zone in the border State would not be included in the ban.

State	Ineligible Product- Production Date
Alabama	Product which is produced on or after February 8, 2017 but prior to August 14, 2017 from only the portion of the State shown in NOTE Twelve at the end of Section I of this document. Virginia	<p>Product produced on or after June 15, 2007 but before November 11, 2007 (entire State); and product produced on or after January 21, 2022 but before July 26, 2022 from Fauquier County, Virginia (HPAI ban); and product produced on or after August 6, 2022, but before June 7, 2023, from Caroline County, Virginia (HPAI ban); and product produced on or after September 12, 2022, but before June 7, 2023, from Hampton County, Virginia (HPAI ban); and product produced on or after September 29, 2022, but before June 7, 2023, from Southampton County, Virginia (HPAI ban); and product produced on or after September 26, 2022, but before June 7, 2023, from Virginia Beach City, Virginia (HPAI ban); product produced on or after October 14, 2022, but before June 7, 2023, from Gloucester County, Virginia (HPAI ban); product produced on or after December 28, 2022, but before June 7, 2023, from Rockingham County, Virginia (HPAI ban); and product produced on or after January 31, 2023, but before June 7, 2023, from entire State of Virginia (HPAI ban).</p>

State	Ineligible Product- Production Date
Washington	<p>Product produced on or after April 12, 2022, but before August 10, 2023, from Spokane County, Washington (HPAI ban); and product produced on or after April 13, 2022, but before August 10, 2023, from Pacific County, Washington (HPAI ban); and product produced on or after April 16, 2022, but before August 10, 2023, from Pierce County, Washington (HPAI ban); and product produced on or after April 19, 2022, but before August 10, 2023, from Clallam County or Whatcom County, Washington (HPAI ban); and product produced on or after April 20, 2022, but before August 10, 2023, from Okanogan County, Washington (HPAI ban); and product produced on or after April 25, 2022, but before August 10, 2023, from Thurston County, Washington (HPAI ban); and product produced on or after May 1, 2022, but before August 10, 2023, from King County, Washington (HPAI ban); and product produced on or after May 5, 2022, but before August 10, 2023, from Snohomish County, Washington (HPAI ban); and product produced on or after May 17, 2022, but before August 10, 2023, from Yakima County, Washington (HPAI ban); and product produced on or after June 7, 2022, but before August 10, 2023, from Kitsap County, Washington (HPAI ban); and product produced on or after June 8, 2022, but before August 10, 2023, from Jefferson County, Washington (HPAI ban); and product produced on or after July 20, 2022, but before August 10, 2023, from Walla Walla County, Washington (HPAI ban); and product produced on or after August 2, 2022, but before August 10, 2023, from Cowlitz County, Washington (HPAI ban); and on or after January 19, 2023, but before August 10, 2023, from Benton County, Washington (HPAI ban); and product produced on or after September 21, 2023, from King County, Washington (HPAI ban); and product produced on or after September 28, 2023, from Kittitas County, Washington (HPAI ban); and product produced on or after October 27, 2023, from Pierce County, Washington (HPAI ban)</p>
West Virginia	<p>Product produced between March 10, 2007 and August 2, 2007; and product produced on or after January 16, 2024, from Kanawha County, West Virginia (HPAI ban)</p>
Wisconsin	<p>Product produced on or after June 3, 2013 but before October 30, 2013; and product produced on or after March 16, 2015 but prior to December 11, 2015 (HPAI ban); and product which is produced on or after February 9, 2017 but prior to August 22, 2017 from only the portion of the State shown in NOTE ELEVEN at the end of Section I of this document; and product produced on or after February 20, 2022, but before June 19, 2023, from Jefferson County, Wisconsin (HPAI ban); and product produced on or after March 11, 2022, but before June 19, 2023, from Rock County (HPAI ban); and product produced on or after March 15, 2022, but before June 19, 2023, from Racine County, Wisconsin (HPAI ban); and product produced on or after March 18, 2022, but before June 19, 2023, from Barron County, Wisconsin (HPAI ban); and product produced on or after March 21, 2022, but before June 19, 2023, from Sheboygan County, Wisconsin (HPAI ban); and product produced on or after March 23, 2022, but before June 19, 2023, from Columbia County, Wisconsin (HPAI ban); and product produced on or after March 23, 2022, but before June 19, 2023, from Polk County, Wisconsin (HPAI ban); and product produced on or after April 9, 2022, but before June 19, 2023, from the entire State (HPAI ban); and product produced on or after October 19, 2023, but before June 19, 2023, from the entire State (HPAI ban).</p>
Wyoming	<p>Product produced on or after March 5, 2022 from Park County, Wyoming (HPAI ban); and product produced on or after March 7, 2022 from Johnson County, Wyoming (HPAI ban); and product produced on or after March 8, 2022 from Fremont County, Wyoming (HPAI ban); and product produced on or after March 10, 2022 from Sheridan County, Wyoming (HPAI ban); and product produced on or after April 18, 2022 from Lincoln County, Wyoming (HPAI ban); and product produced on or after April 27, 2022 from Campbell County, Wyoming (HPAI ban); and product produced on or after October 12, 2022 from Converse County, Wyoming (HPAI ban)</p>

** Most poultry products under APHIS certification are believed to require certification statements that they did not transit **(nor were stored in)** **“banned” states during the time periods identified above.**

KNOWN EXCEPTIONS TO BAN- (For more information on these exceptions, please return to the previous page and select the pertinent article).

- Finished, packaged, shelf-stable dry (“crunchy” or hermetically-sealed) pet food is not subject to these bans.
- Feathers (special certification required- may be required to be fumigated at port of entry).
- [Egg shells](#)- blown (disinfected) egg shells intended for ornamental purposes
- [Certain Blood products](#) (originating from birds) intended for technical/research purposes
- Certain heat-processed egg products for animal consumption.

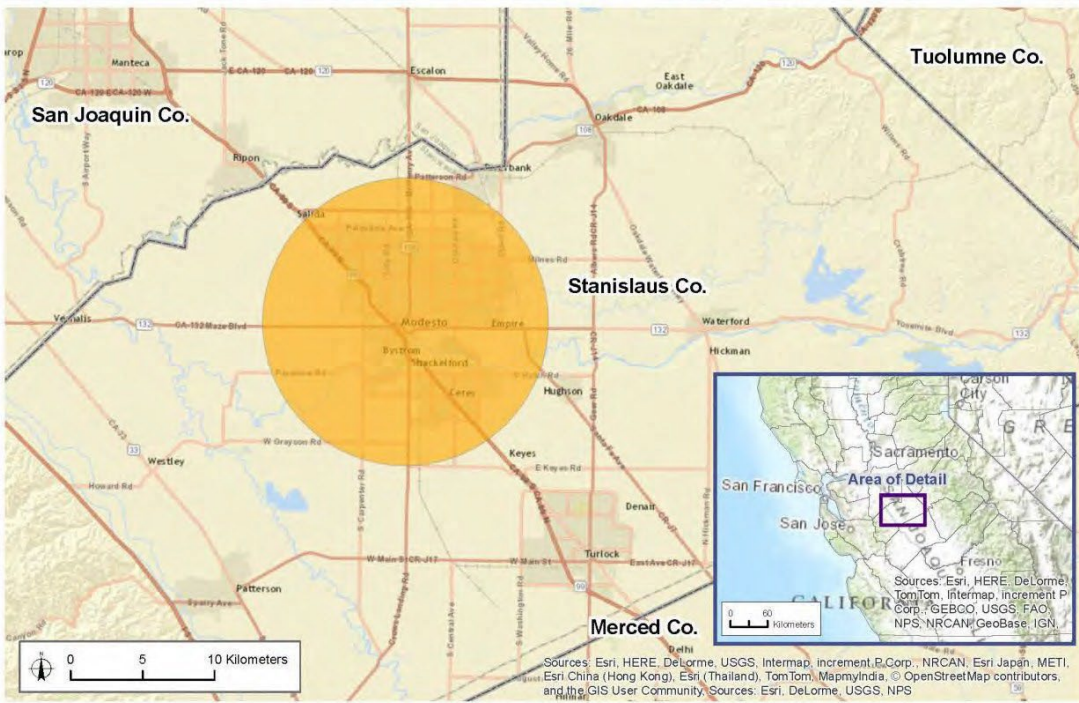

Other exceptions to the bans may exist. Exporters should always have their Japanese importers contact the Japanese Animal Quarantine Service office for confirmation.

NOTES (Zones Banned for LPAI bans in place on or after August 22, 2014):

1. NOTE ONE (California): Zone that **was** banned from August 22, 2014 until (but not including) September 16, 2014.

20 Kilometer Diameter Ineligible Zone

3. NOTE THREE: Zone in Michigan that was banned for product produced on or after November 9, 2014 but prior to August 28, 2015:

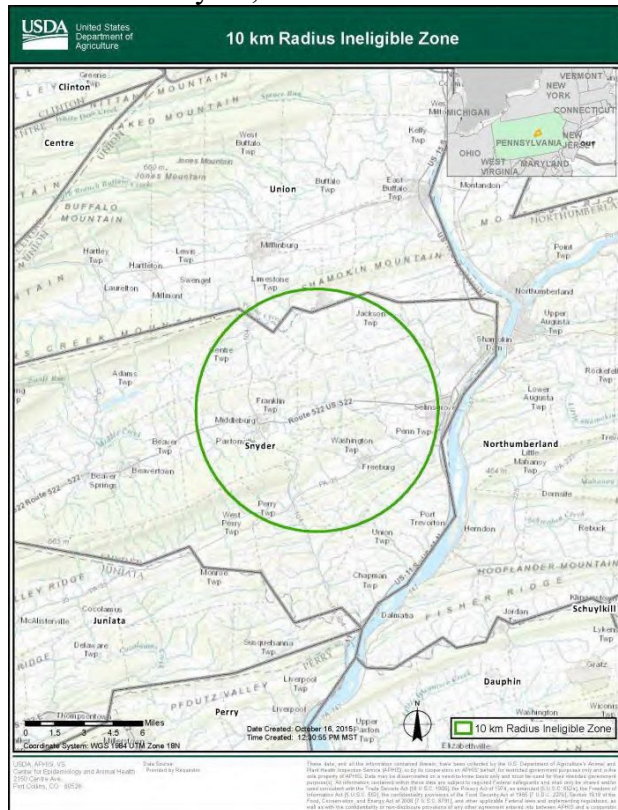

4. NOTE FOUR: Zone in New Jersey that was banned for product produced on or after December 30, 2014 but before (not including) September 14, 2015:

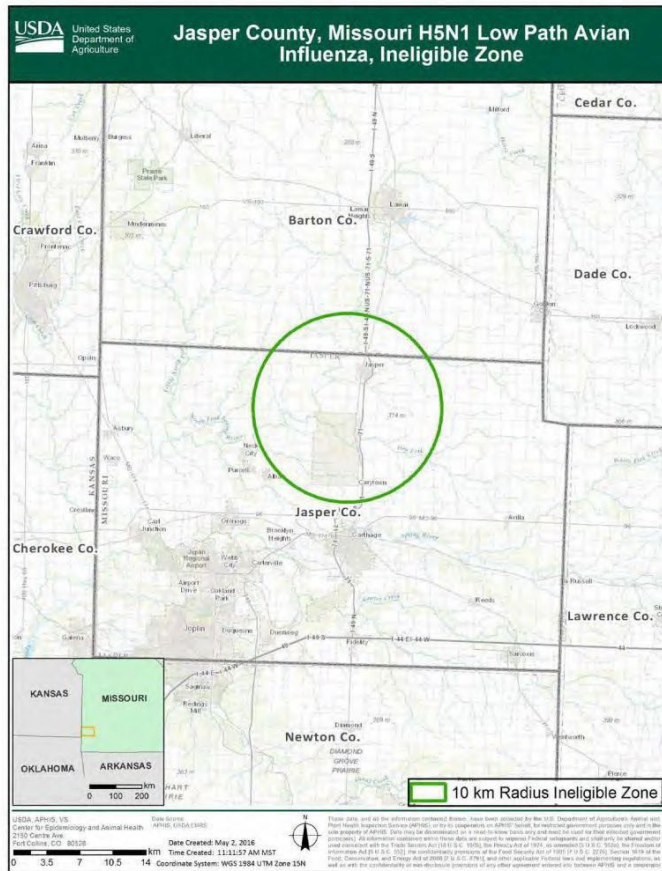

5. NOTE FIVE: Zone in Michigan that was banned for product produced on or after September 10, 2015 2014 but before (not including) January 14, 2016:

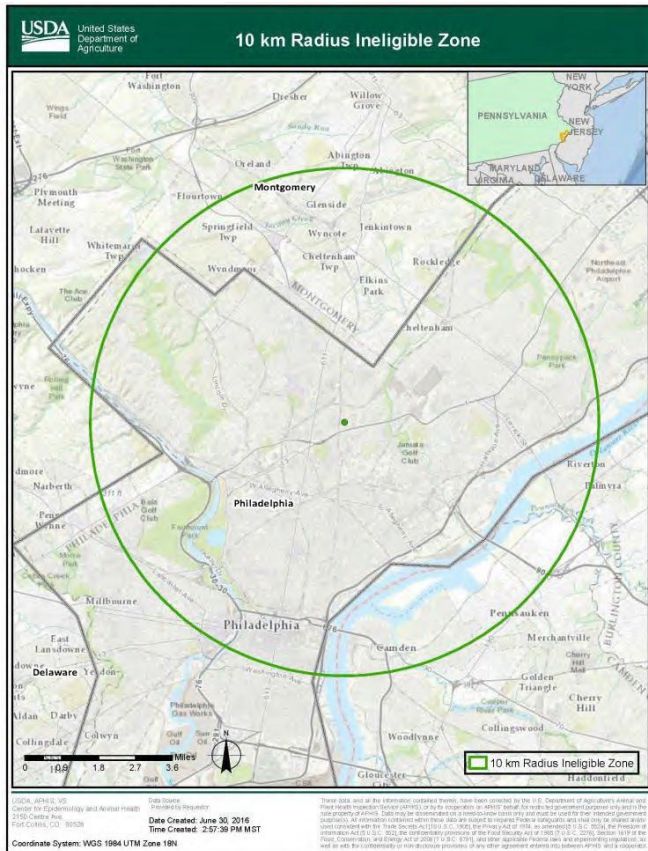

6. NOTE SIX: Zone in Pennsylvania that was banned for product produced on or after August 25, 2015 but before (not including) January 14, 2016:

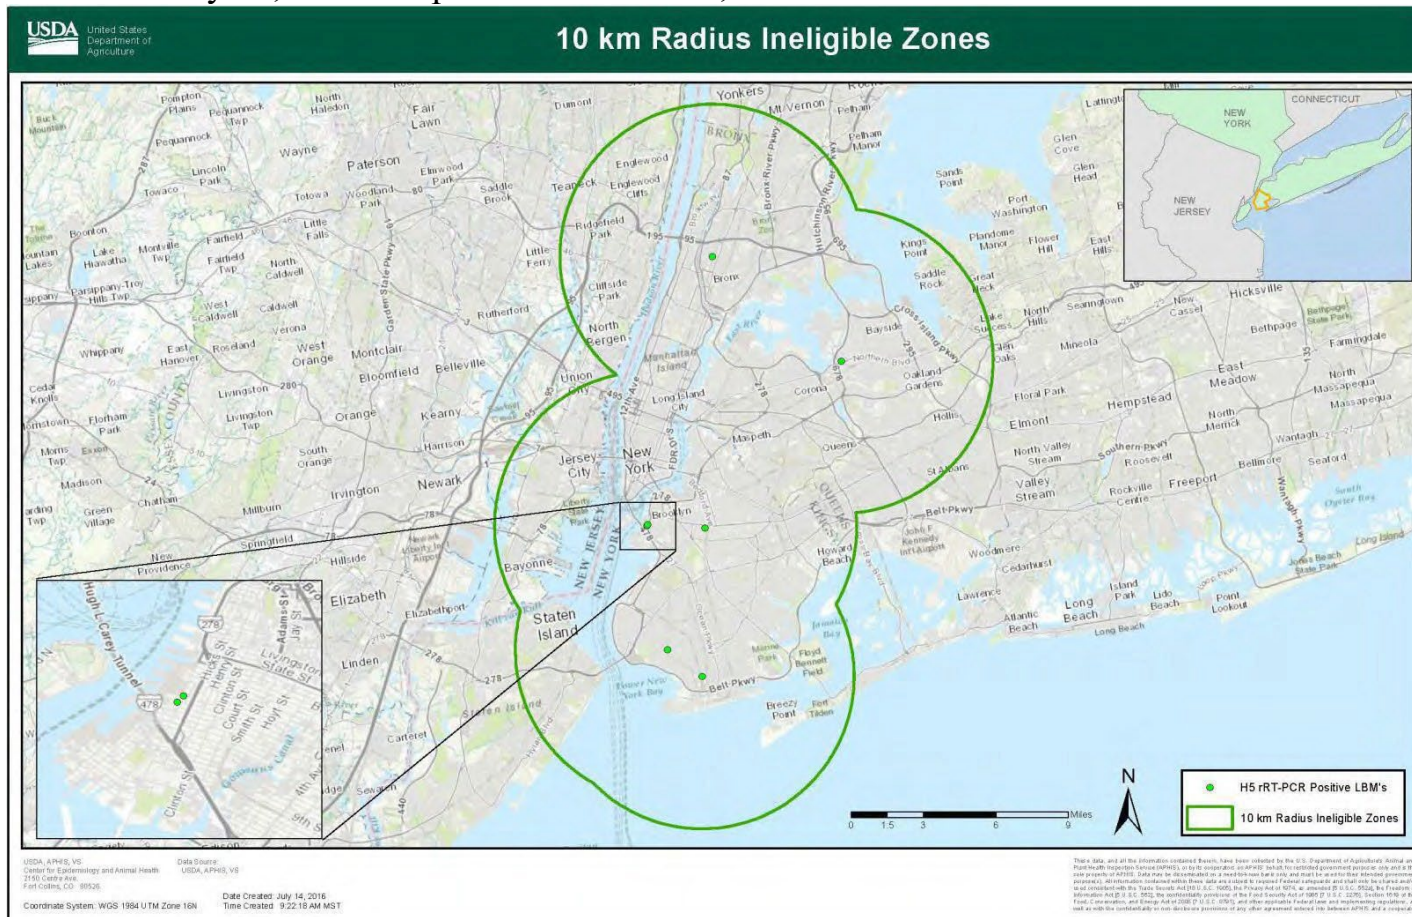

7. NOTE SEVEN: Zone in Missouri that was banned for product produced on or after April 5, 2016 but prior to August 16, 2016:

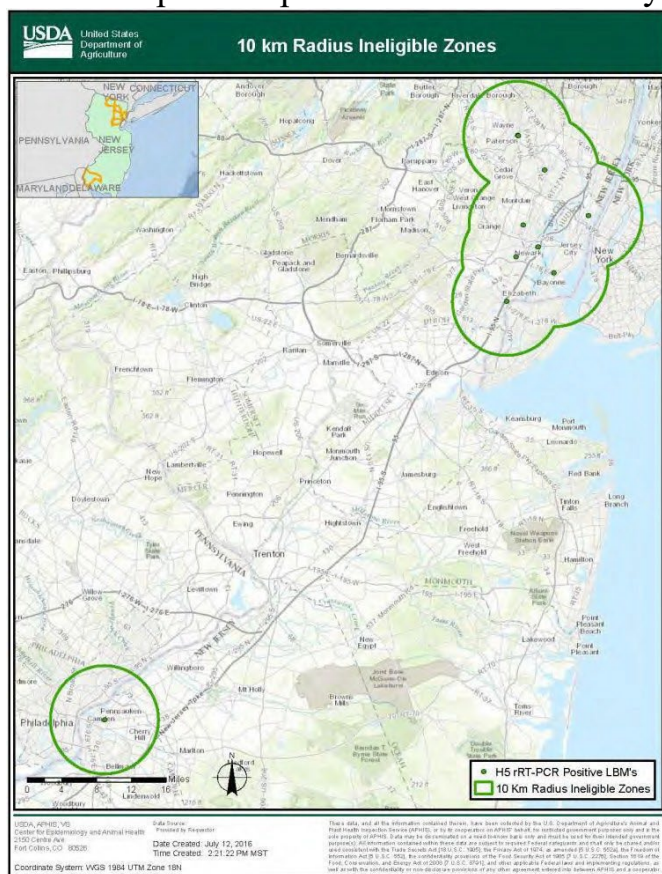

8. Note Eight: Zone in Pennsylvania that was banned for product produced on or after June 7, 2016 but prior to October 14, 2016:

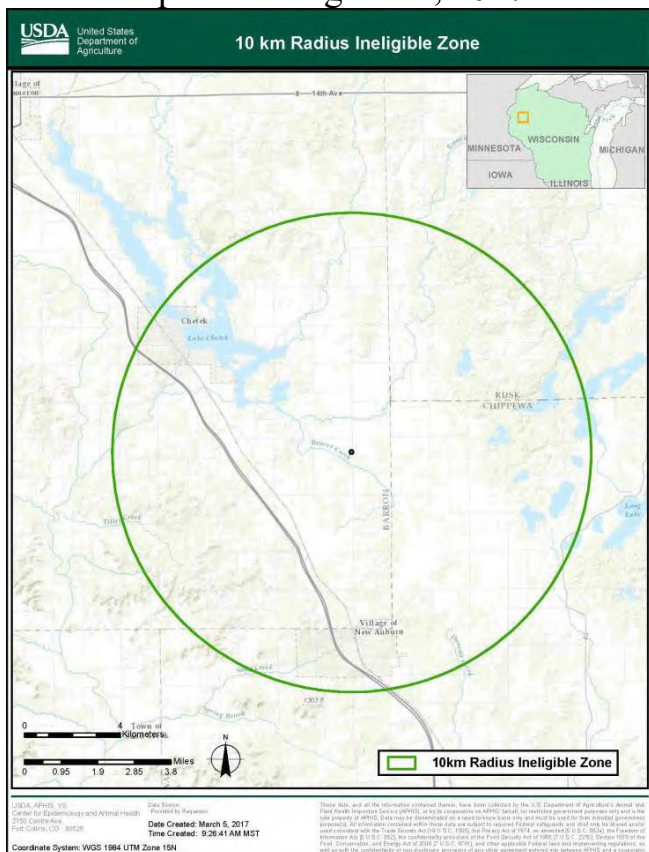

9. Note Nine: Zone in New York and a portion in New Jersey that was banned for product produced on or after May 31, 2016 but prior to October 14, 2016:

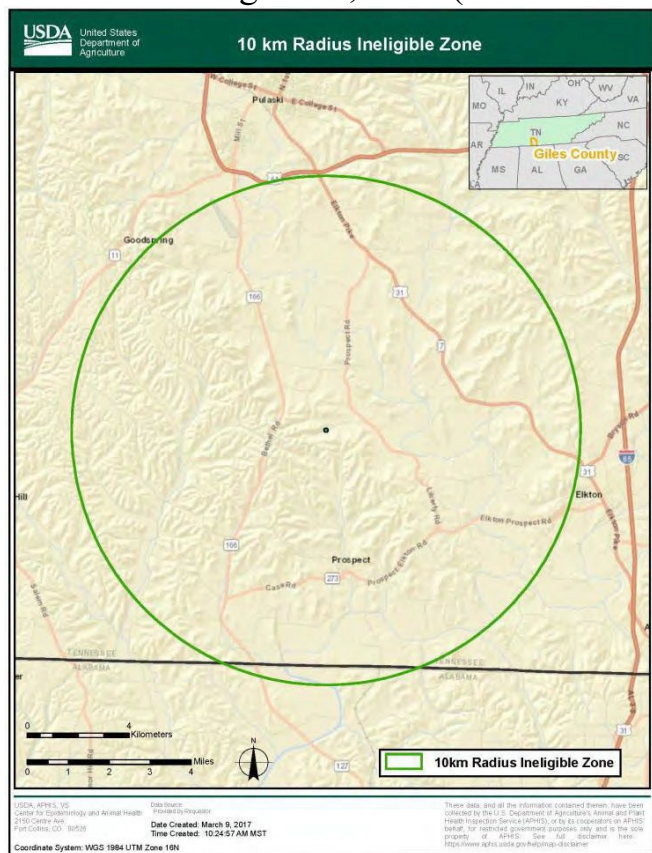

10. Note TEN: Zones in New Jersey and a portion in Pennsylvania and a portion of New York that is banned for product produced on or after May 31, 2016 but prior to October 14, 2016:

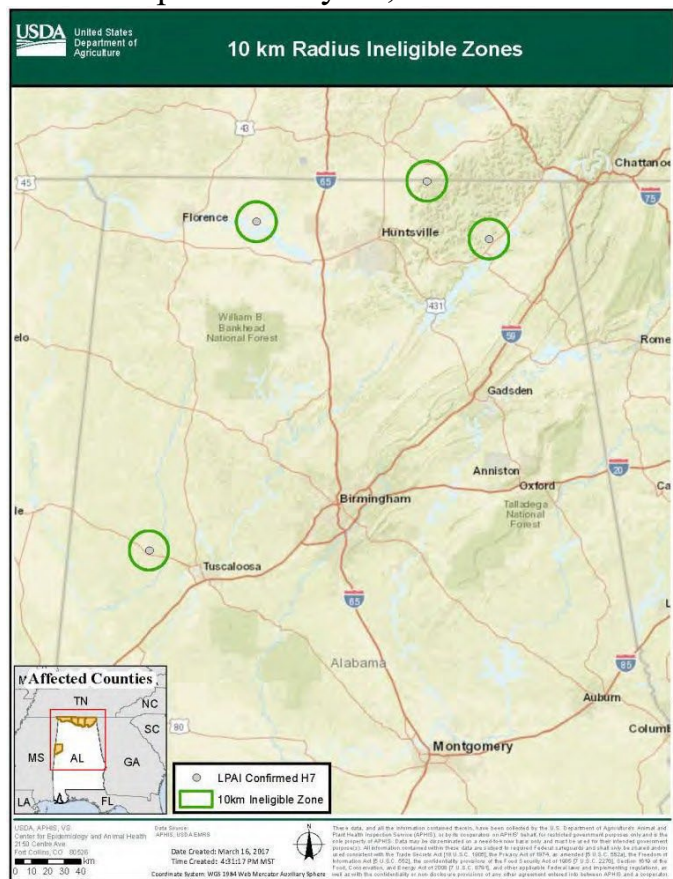

11. Note Eleven: Zone in Wisconsin that was banned for product produced on or after February 9, 2017 but prior to August 22, 2017:

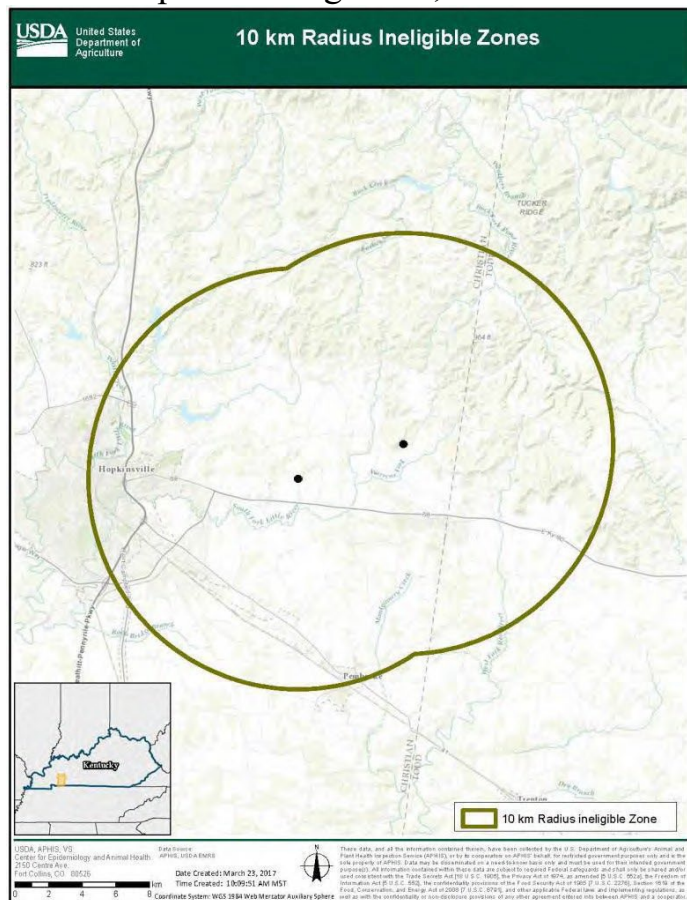

12. Note Twelve: Zone in Alabama that was banned for product produced on or after February 8, 2017 but prior to August 14, 2017 (shown at the bottom portion of the below map):

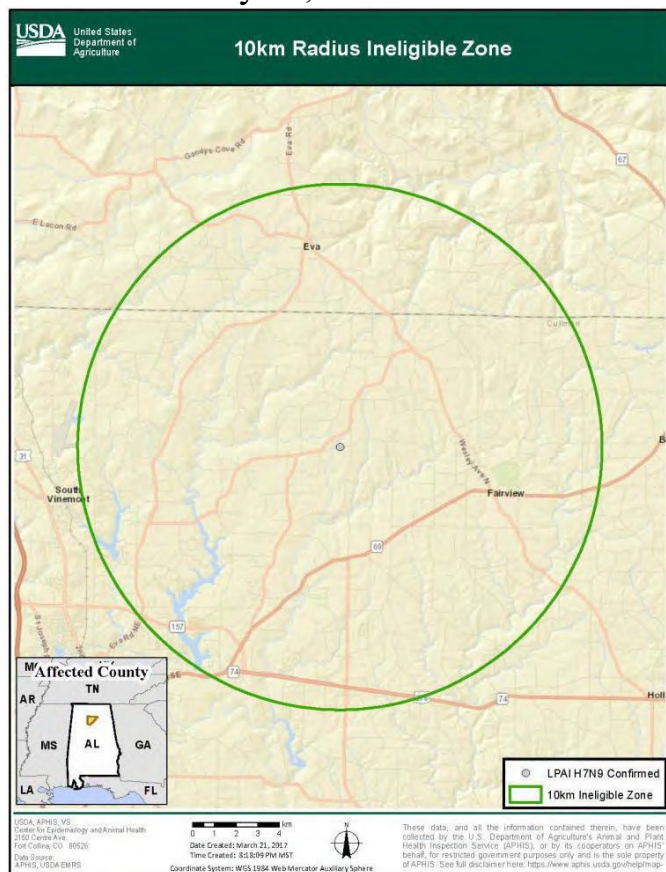

13. Note Thirteen: Zones in Alabama that were banned for product produced on or after February 14, 2017 but prior to July 18, 2017:

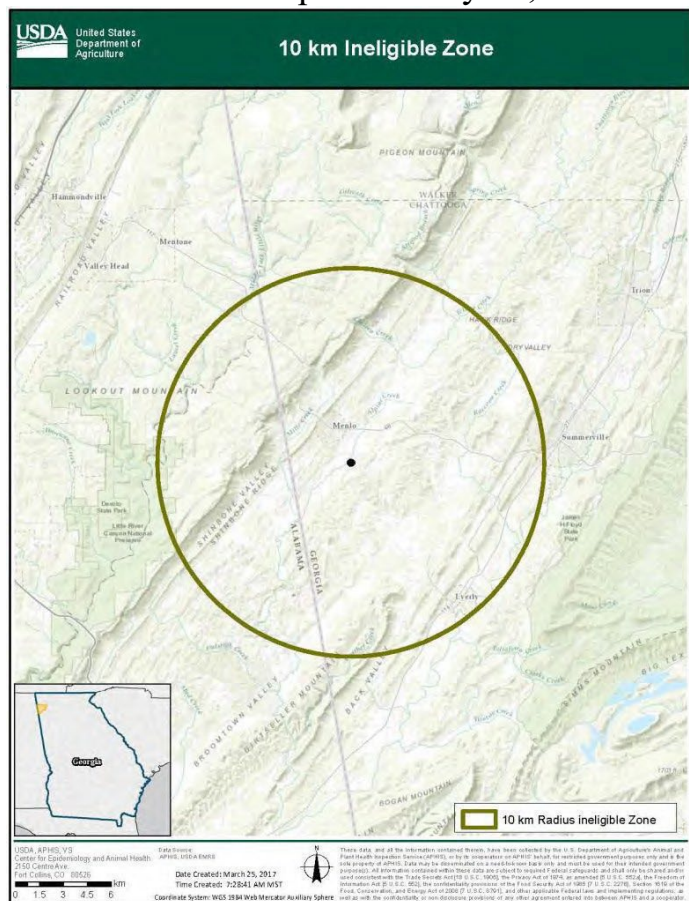

14. Note Fourteen: Zone in Kentucky that was banned for product produced on or after February 23, 2017 but prior to August 24, 2017:

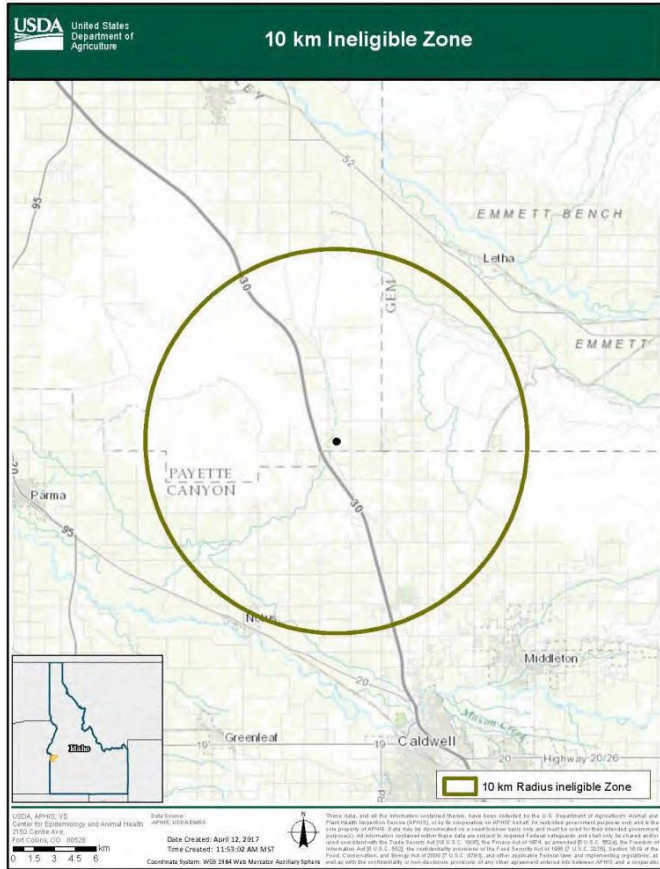

15. Note Fifteen: Zone in Alabama that was banned for product produced on or after February 24, 2017 but prior to July 18, 2017:

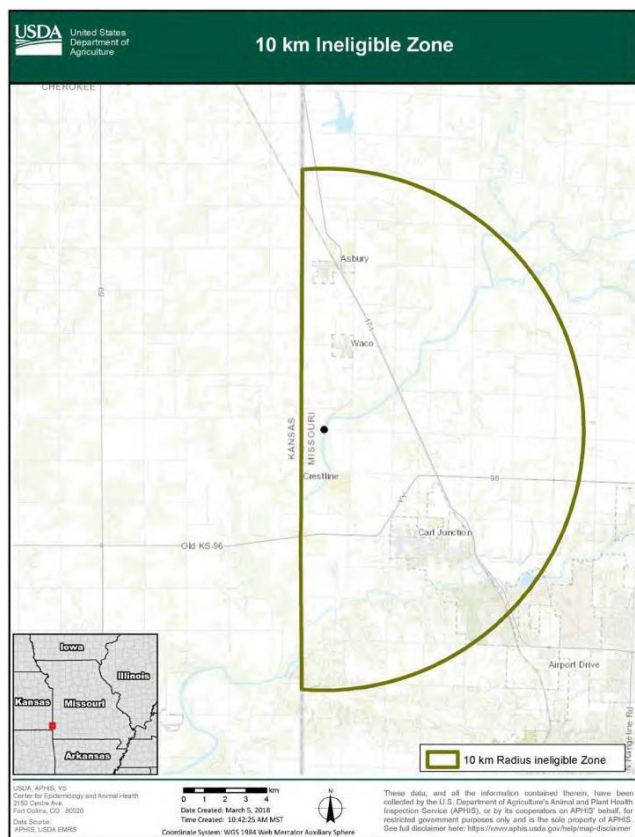

16. Note Sixteen: Zone in Georgia and Alabama that was banned for product produced on or after February 27, 2017 but prior to July 20, 2017:

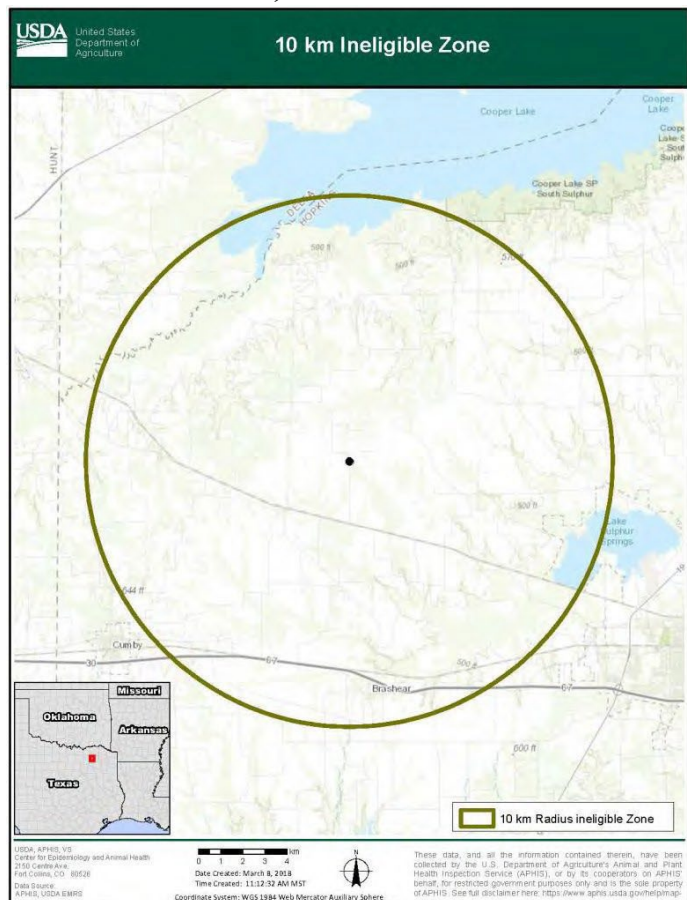

17. Note Seventeen: Zone in Idaho that was banned for product produced on or after March 15, 2017 but prior to August 2, 2017:

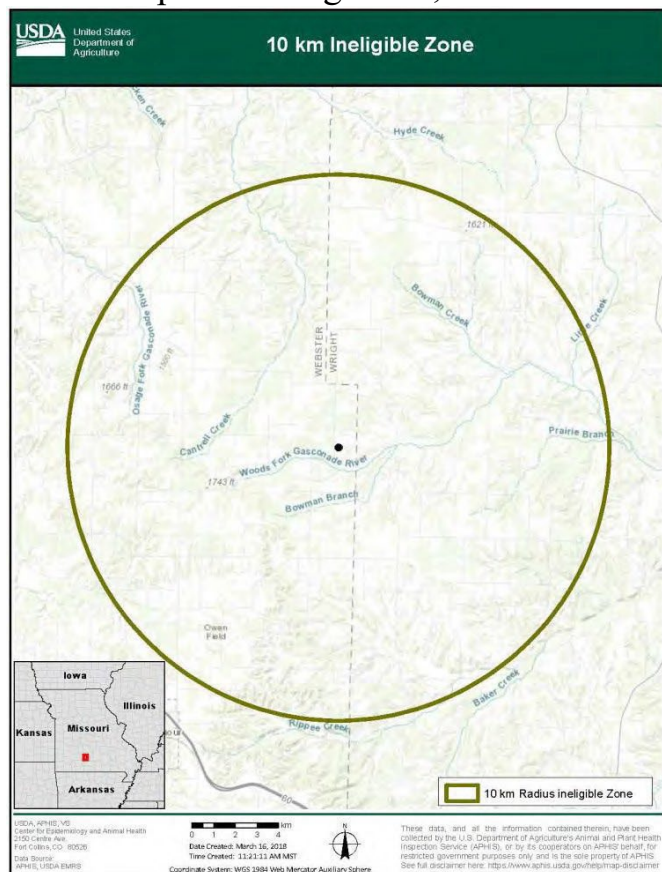

18. Note Eighteen: Zone in Missouri that was banned for product produced on or after February 5, 2018 but prior to August 1, 2018:

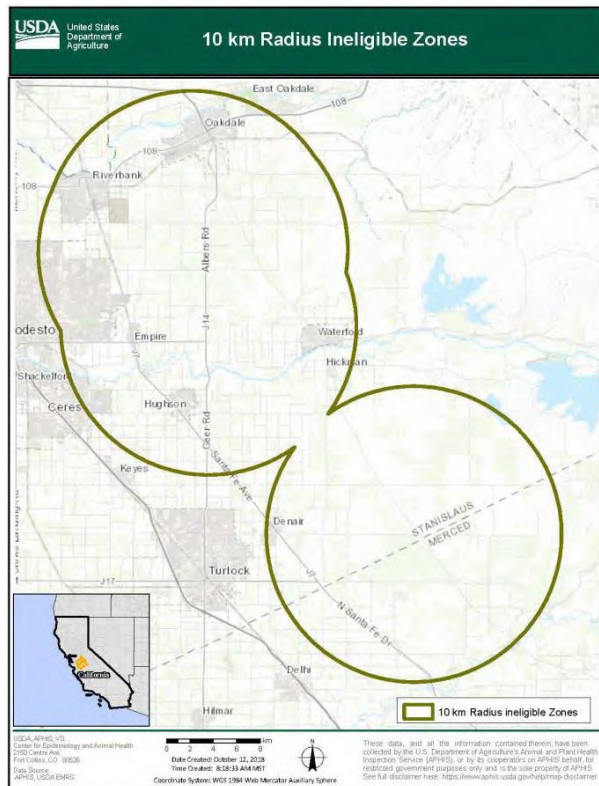

19. Note Nineteen: Zone in Texas that was banned for product produced on or after February 9, 2018 but prior to June 21, 2018:

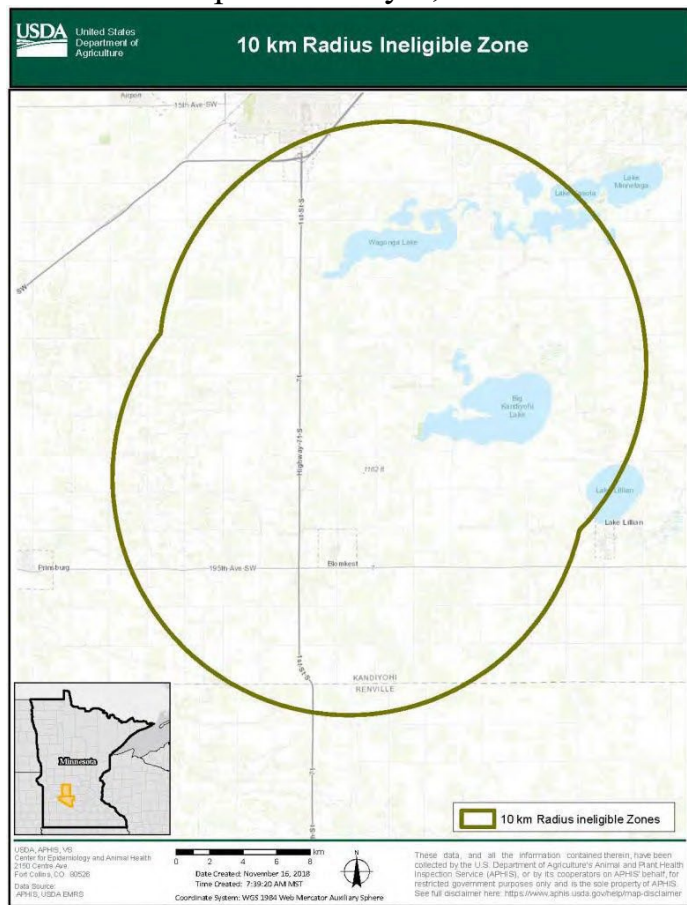

20. Note Twenty: Zone in Missouri that was banned for product produced on or after February 21, 2018 but prior to August 21, 2018:

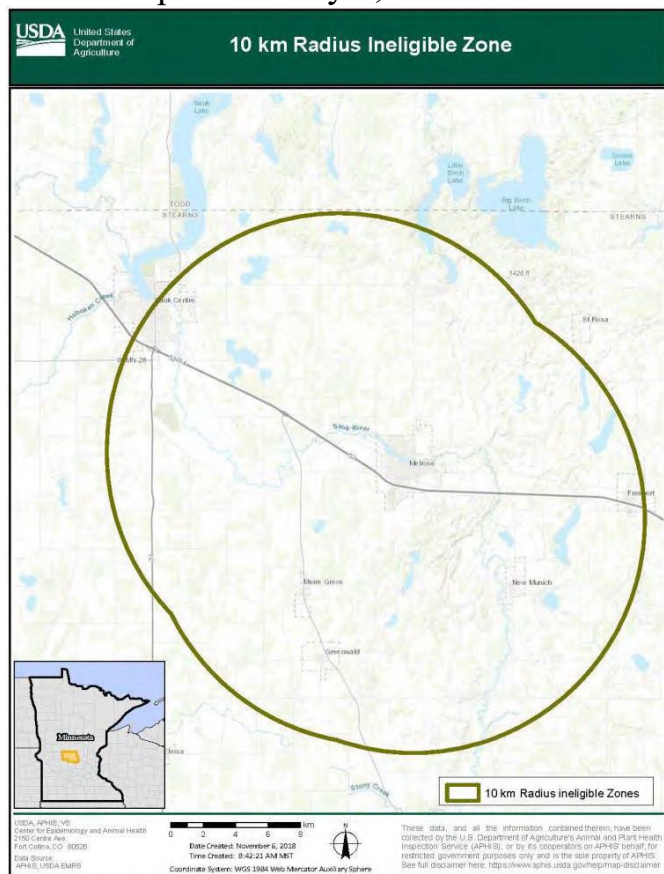

21. Note Twenty-one: Zone in California that was banned for product produced on or after August 15, 2018 but prior to August 20, 2019 (Exception: a portion of the zone remained banned after August 20, 2019, as noted in Note Twenty-eight below) :

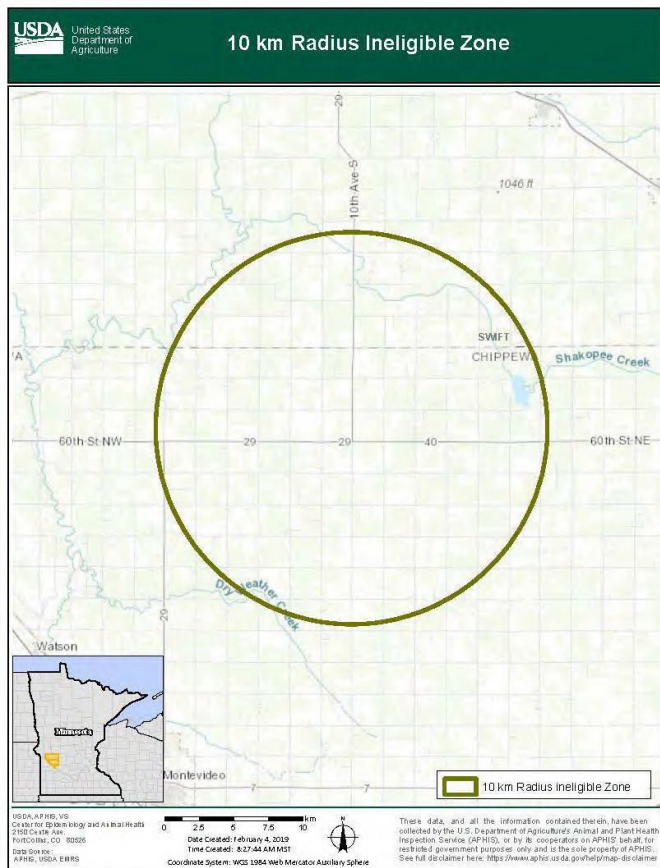

22. Note Twenty-two: Zone in Minnesota that was banned for product produced on or after September 28, 2018 but prior to May 1, 2019:

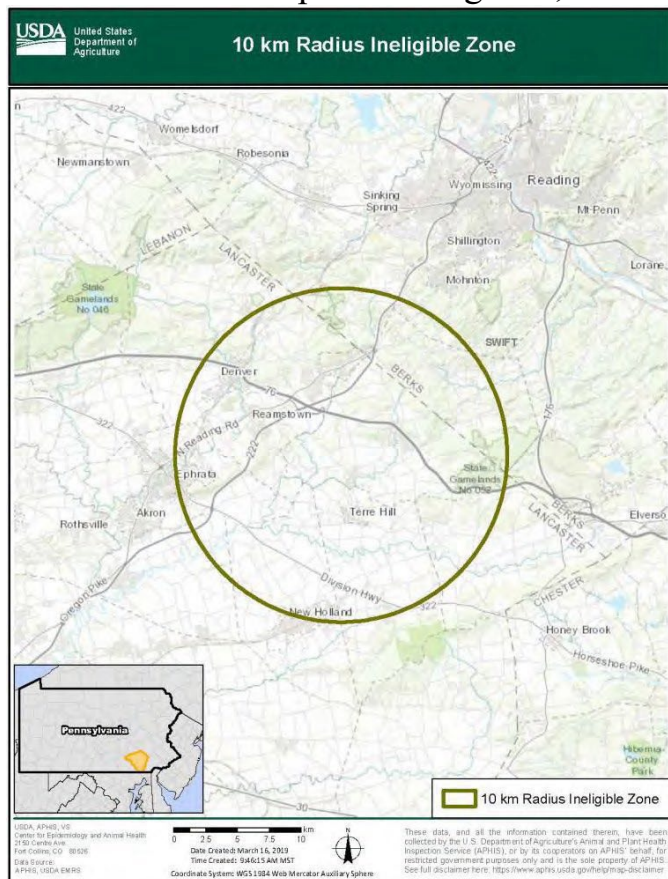

23. Note Twenty-three: Zone in Minnesota that was banned for product produced on or after October 9, 2018 but prior to May 1, 2019:

24. Note Twenty-four: Zone in Minnesota that was banned for product produced on or after January 1, 2019 but prior to May 1, 2019:

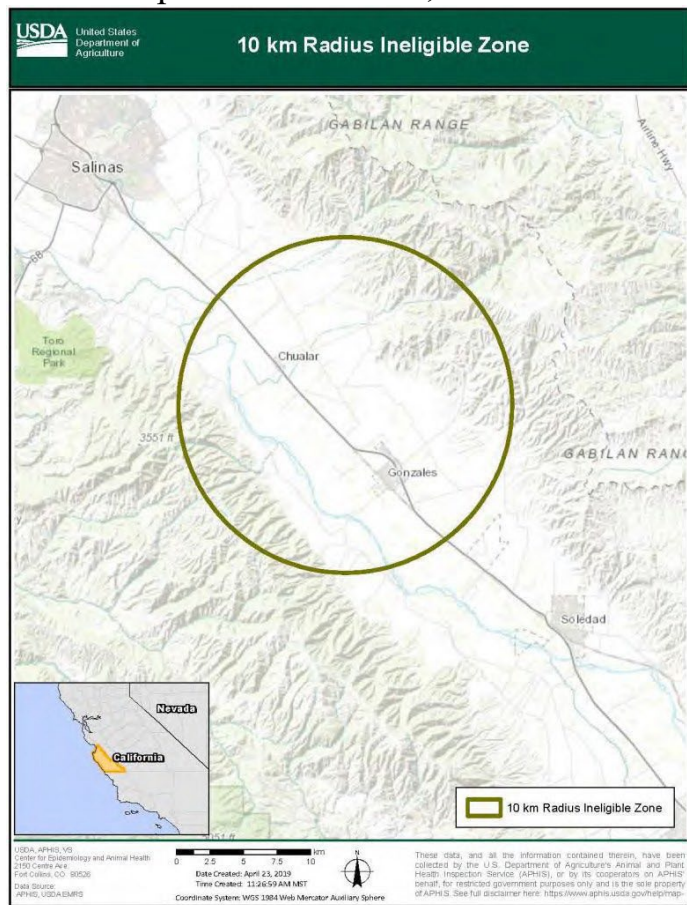

25. Note Twenty-five: Zone in Pennsylvania that was banned for product produced on or after February 18, 2019 but prior to August 9, 2019:

26. Note Twenty-six: Zone in Connecticut that was banned for product produced on or after March 6, 2019 but prior to July 19, 2019:

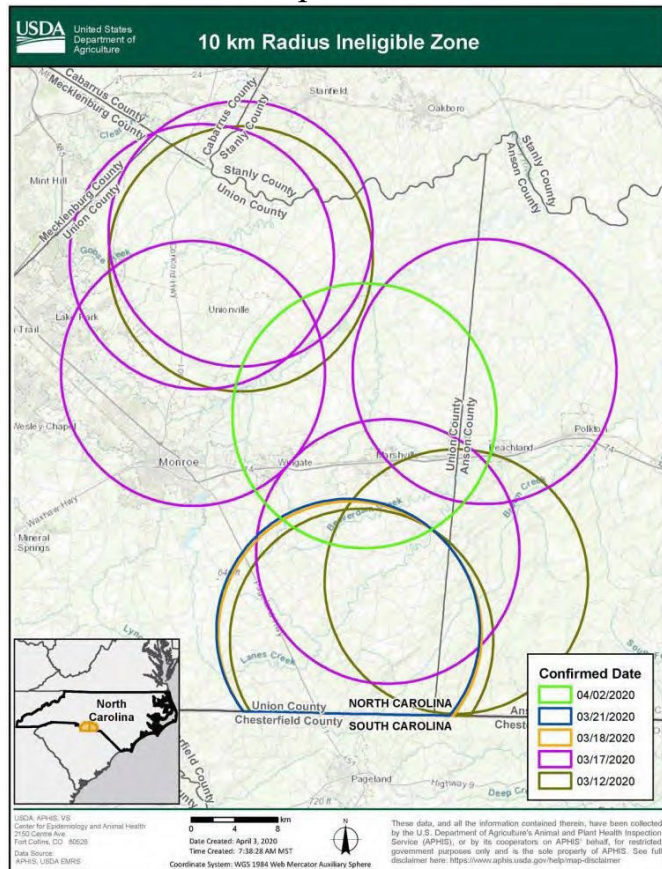

27. Note Twenty-seven: Zone in California that was banned for product produced on or after March 25, 2019 but prior to October 3, 2019:

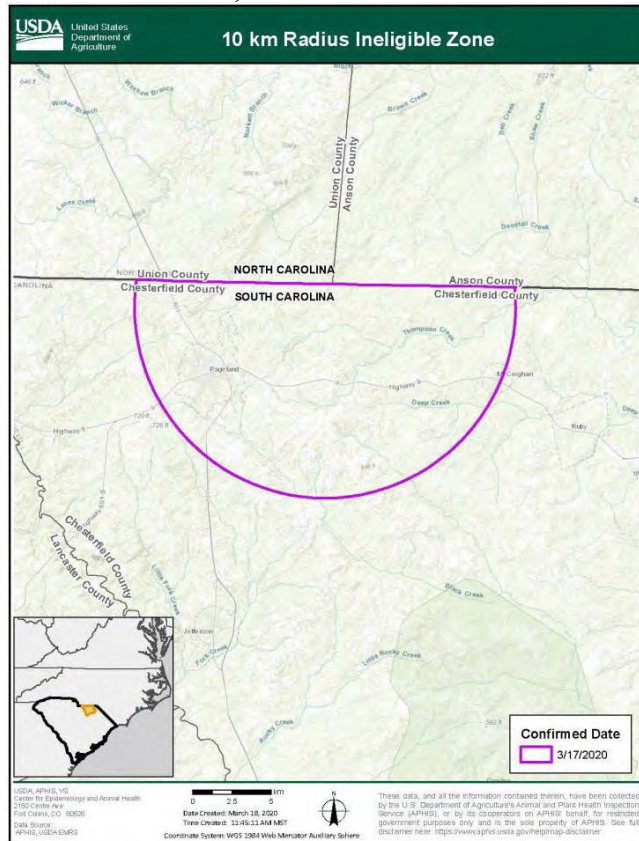

28. Note Twenty-eight: Zone in California that was banned for product produced on or after June 4, 2019 but prior to September 3, 2020:

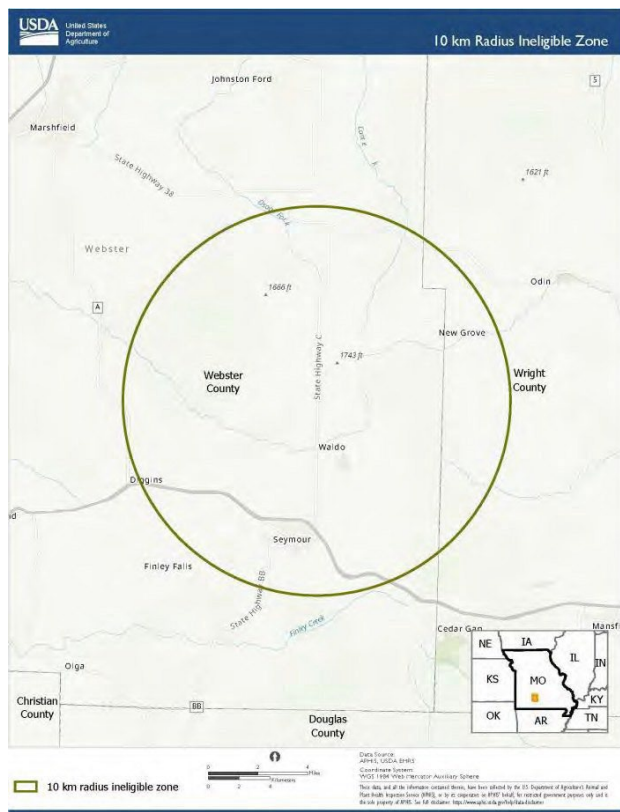

29. Note Twenty-nine: Zones in North Carolina that were banned for product produced on or after February 17, 2020 but prior to October 14, 2020:

30. Note THIRTY: Zone in South Carolina that was banned for product produced on or after February 21, 2020 but prior to August 5, 2020 (when ban which was expanded to entire State on March 16, 2020 was also lifted):

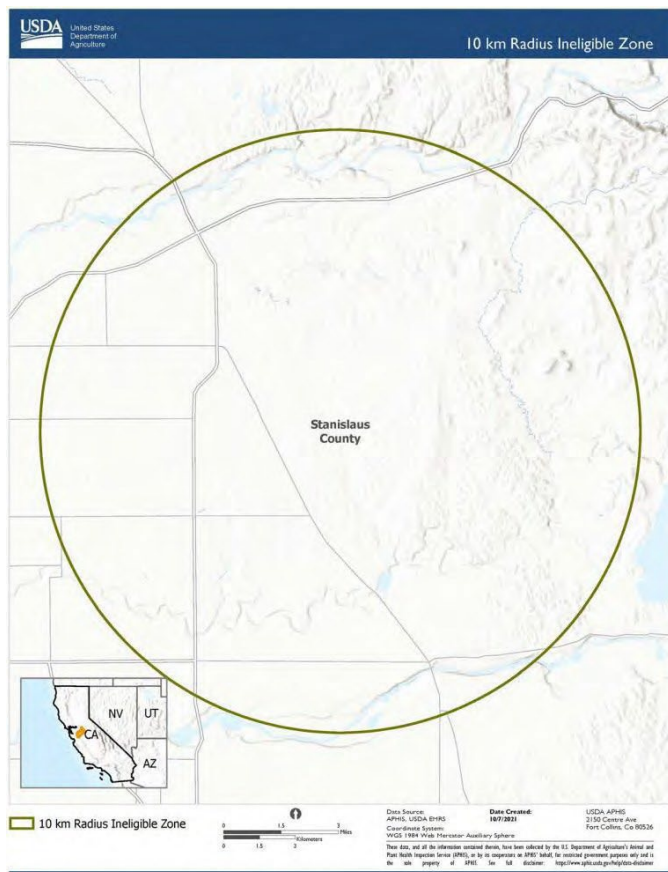

31. Note THIRTY-ONE: Zone in Missouri that was banned for product produced on or after October 15, 2020 but prior to June 15, 2021:

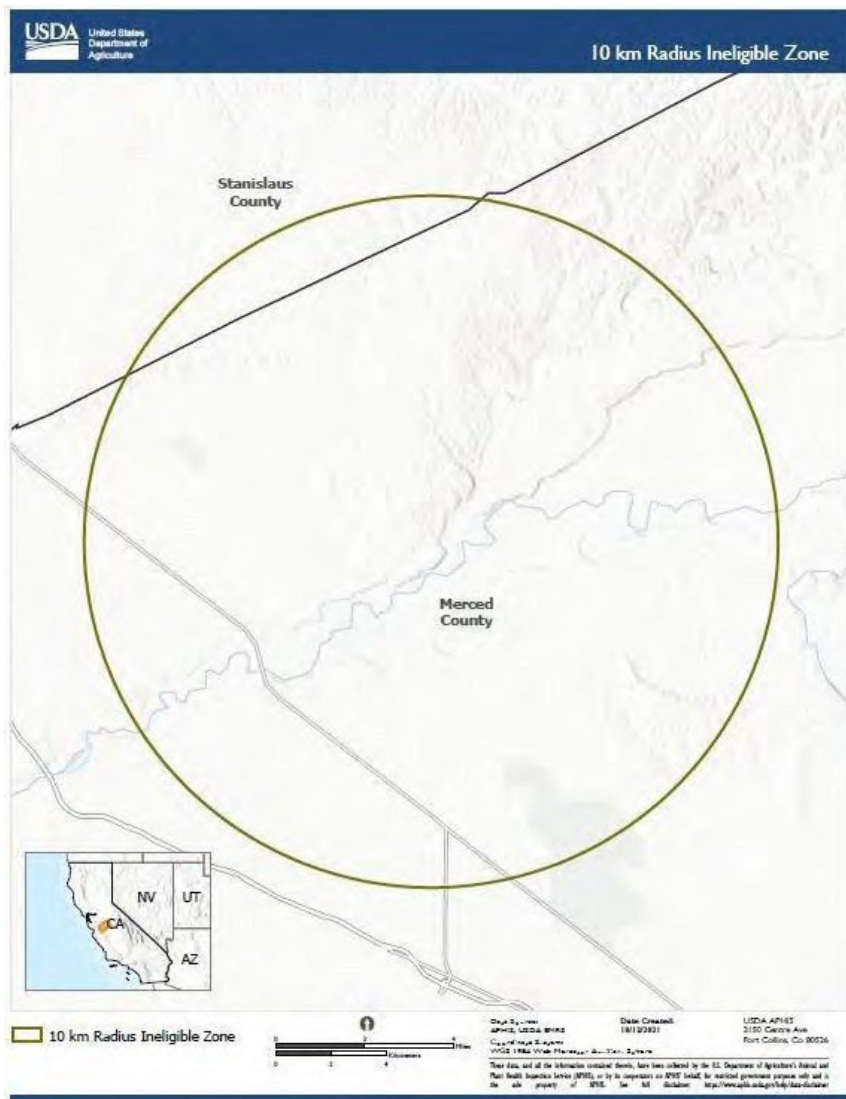

32. Note THIRTY-TWO: Zones in California that were banned for product produced on or after February 25, 2021 but prior to July 15, 2021:

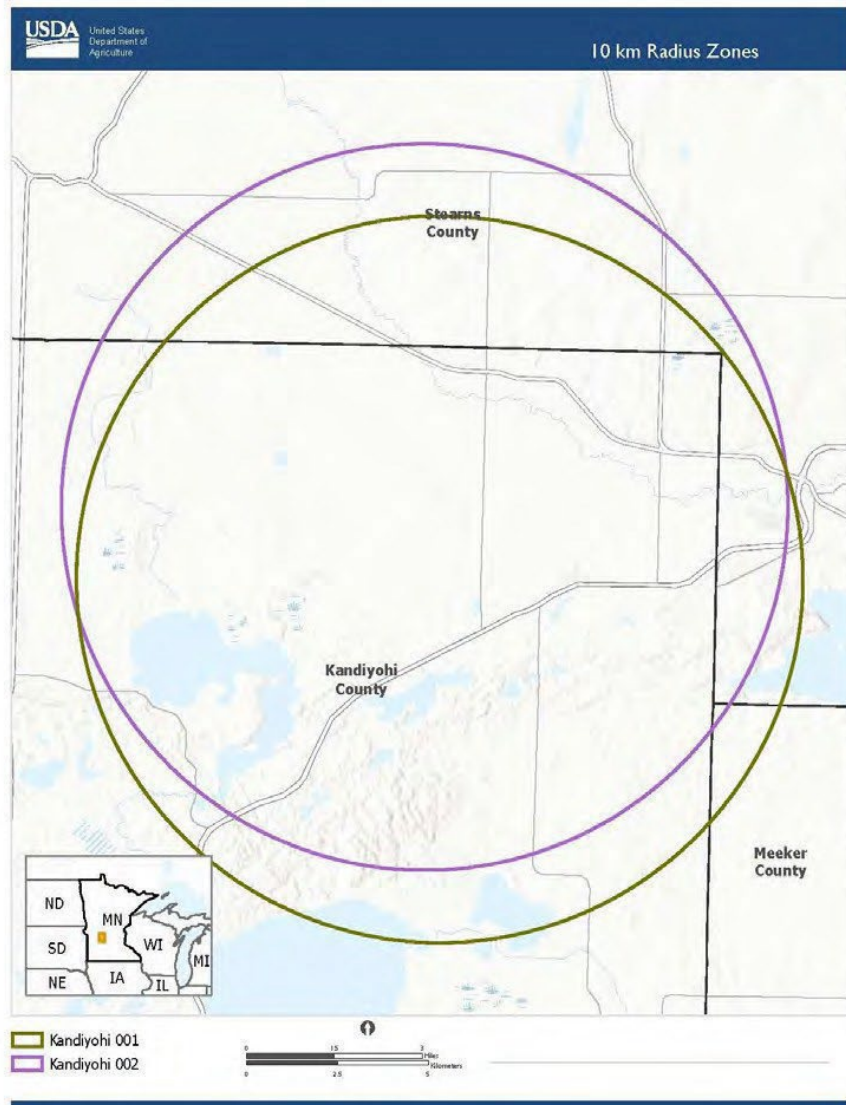

33. Note THIRTY-THREE: Zone in California that is banned for product produced on or after September 9, 2021:

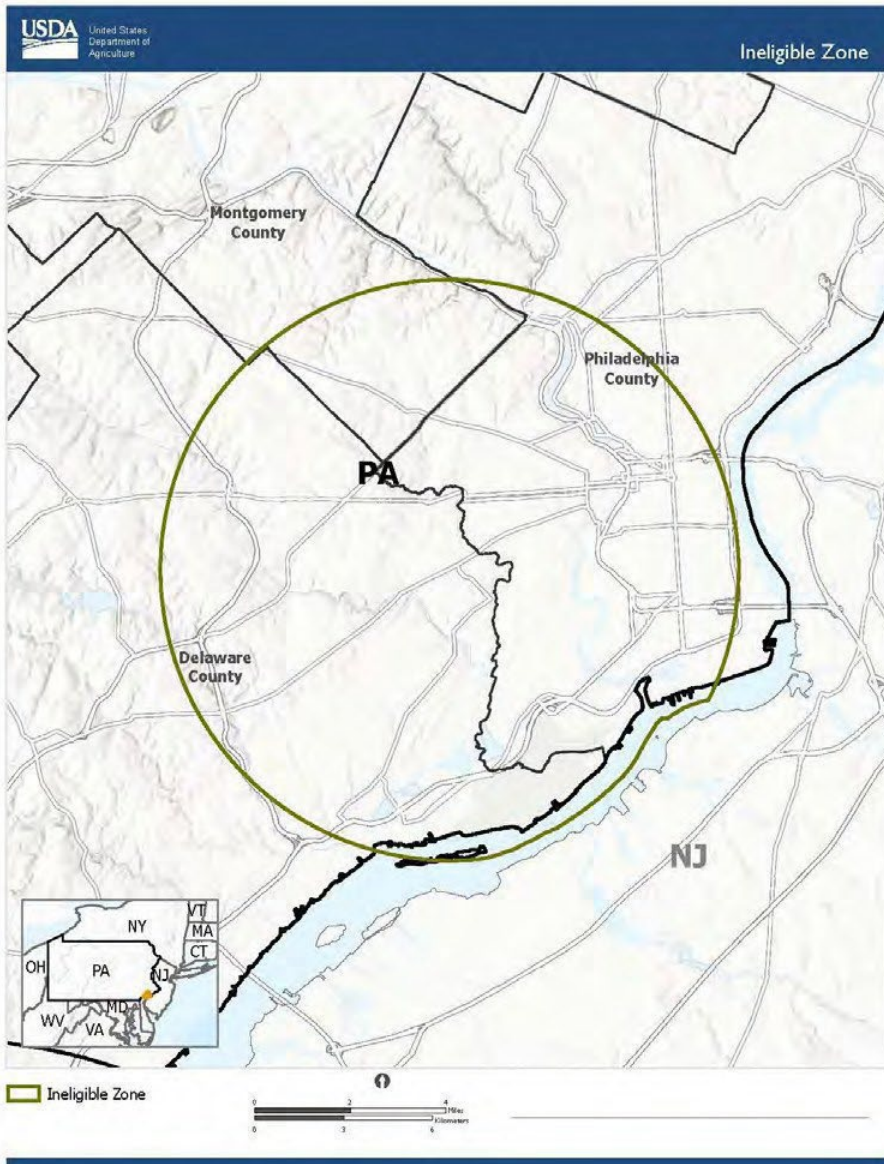

34. Note THIRTY-FOUR: Zone in California that is banned for product produced on or after September 9, 2021:

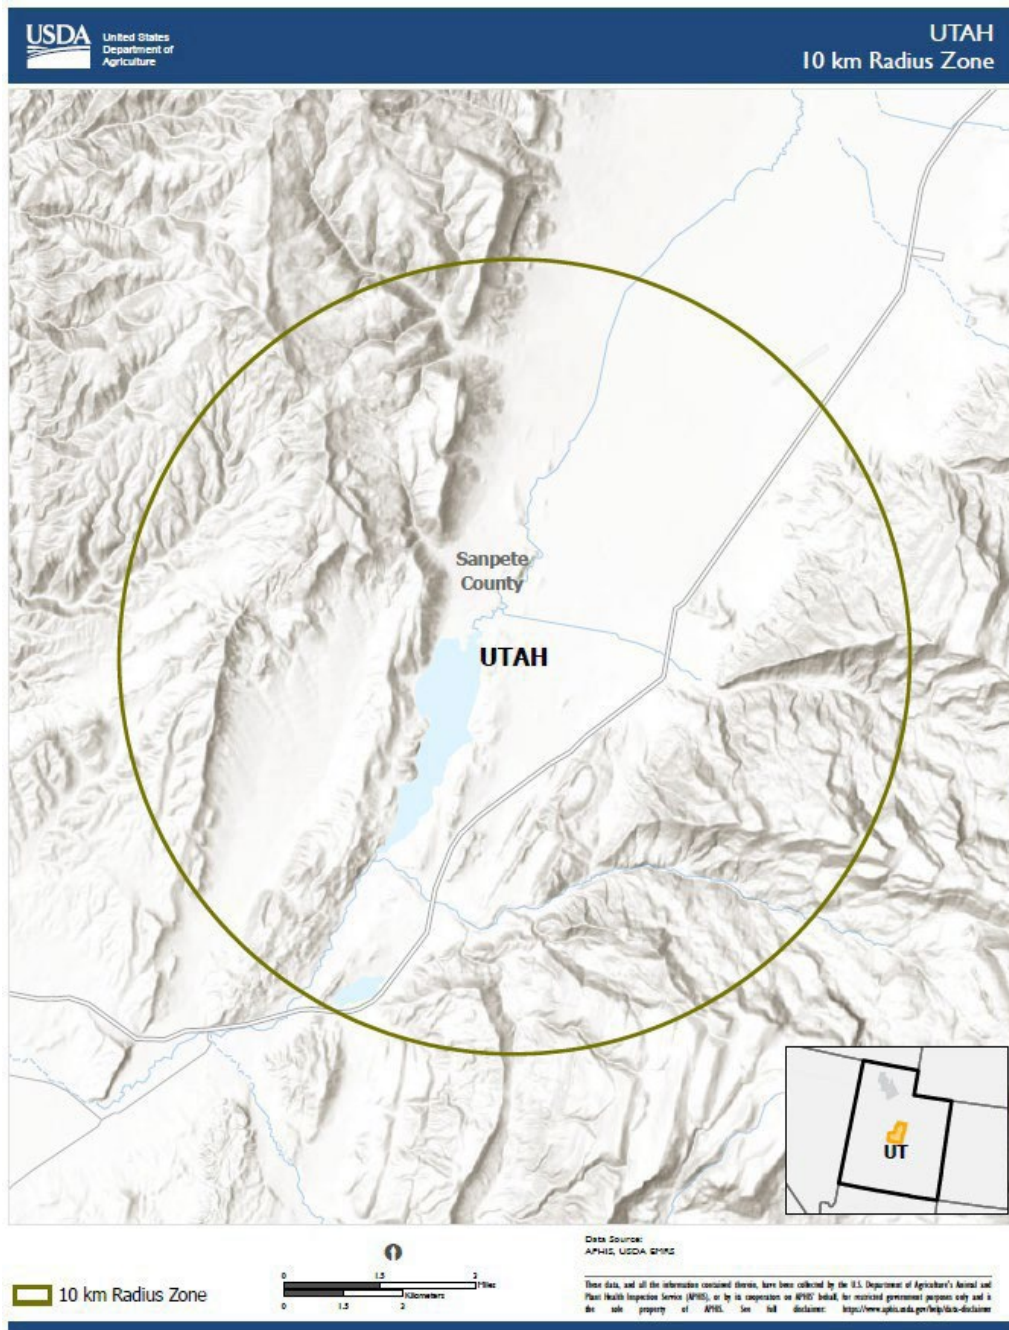

35. Note THIRTY-FIVE: Zones in Minnesota that are banned for product produced on or after November 1, 2021:

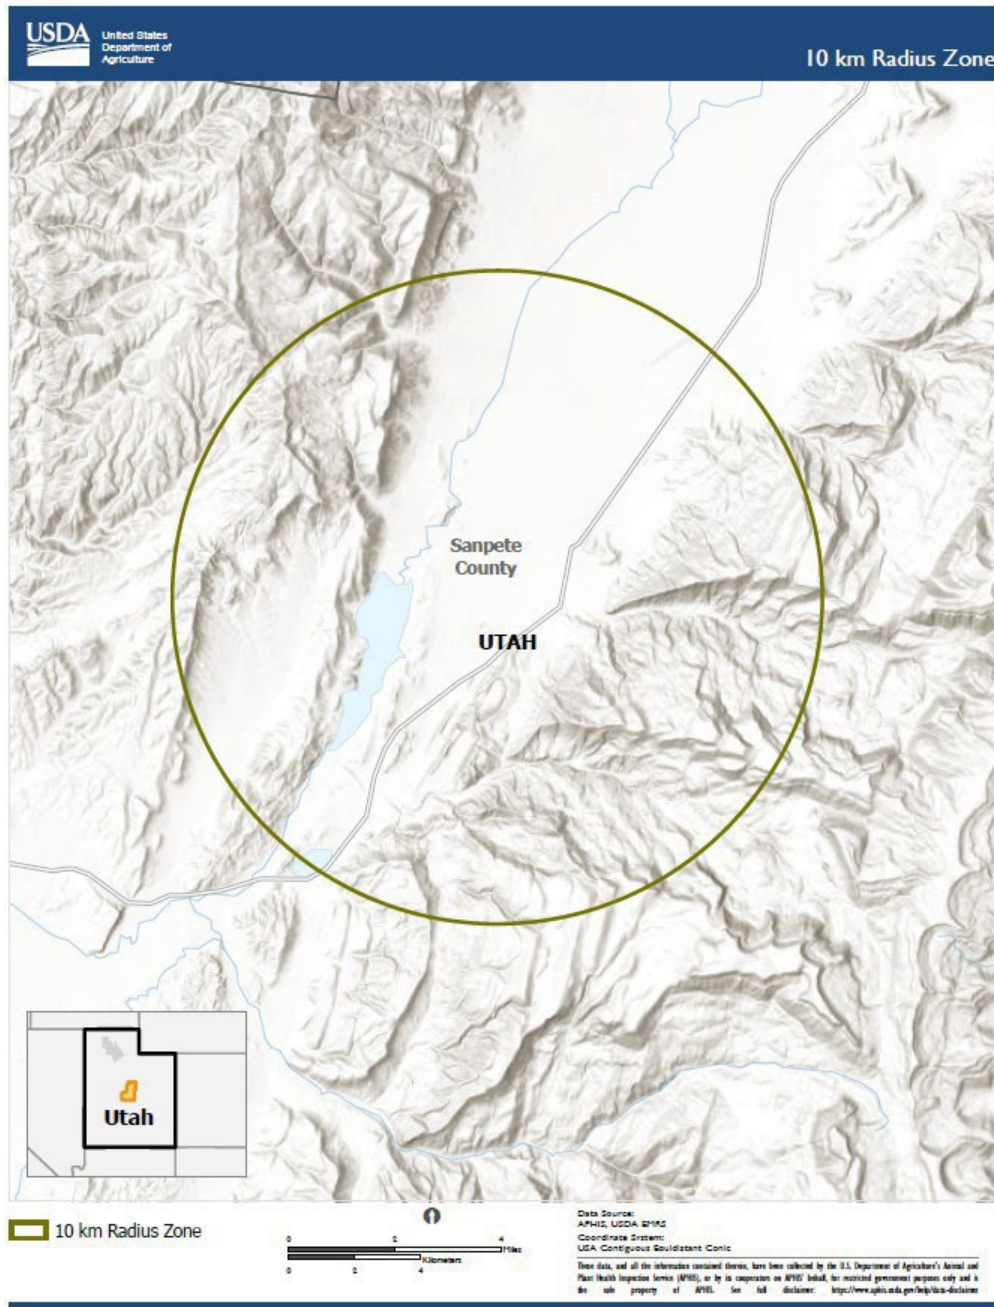

36. Note THIRTY-SIX: Zone in Pennsylvania that is banned for product produced on or after December 15, 2021:

37. Note THIRTY-SEVEN: Zone in Utah that is banned for product produced on or after April 8, 2022:

38. Note THIRTY-EIGHT: Zone in Utah that is banned for product produced on or after April 13, 2022:

II. Newcastle Disease Ineligibilities

Prior to March 5, 2019, Japan prohibited the importation of certain poultry products from areas within 50 km of confirmed detections of Newcastle disease (ND) as defined by the World Organization for Animal Health (OIE). This includes those commodities where the specific IREG indicates “50 km” related to Newcastle disease requirements. On March 5, 2019, Japan agreed to change for some commodities the ND restrictions to the county level. In February 2020, Japan agreed to make the same change to the remaining products covered by their ND restrictions.

The counties listed in the following table are currently under ND restrictions for export to Japan (where the certificate requires to product to originate from counties free of Newcastle disease) for the referenced production dates:

County	Ineligible Product- Production Date
Riverside County, California	Product which is produced on or after December 14, 2018 but prior to December 15, 2019.
San Diego County, California	Product produced on or after August 31, 2019 but prior to January 5, 2020.
San Bernardino County, California	Product produced on or after January 24, 2019 but prior to April 22, 2020.

III. Bovine Spongiform Encephalopathy Bans

The only exceptions to the following bans are the items with protocols listed on the previous page (items that meet all requirements of those protocols).

All products derived from cattle, sheep, goats, & products are prohibited.

Also prohibited regardless of species of origin (these materials are prohibited import even if derived from animals other than ruminants): bone charcoal (e.g. for water purification), bone meal, meat meal, meat-and-bone meal, blood meal, blood products (other than those used for cosmetics, pharmaceuticals, medical devices and specific research or experiment), skin meal (including leather meal), feather meal, hoof meal, horn meal, offal meal, hydrolyzed protein, fish meal, animal fat/oil, powdered animal fat/oil, greaves, dicalcium phosphate, gelatin, collagen, ossein, or any products containing these items which may be used as livestock feed or fertilizers. Spray dried meals and digests (liquid and dry) intended for the production of pet food are included in the ban (although finished pet food is generally exempt).

IV. Chronic Wasting Disease (CWD) Bans

Japan prohibits the importation of any US cervid products because of Chronic Wasting Disease (CWD). This includes products of deer, elk, moose, and caribou.

The only product known to be exempt from the ban is fully tanned leather.

For very limited research purposes, Japan may issue a special permit depending on the product and conditions. The importer or exporter should contact Animal Quarantine Station and submit all the detailed information. The special permit is issued very rarely by Japan for prohibited materials for only limited occasions.

APHIS cannot issue an export certificate for cervid products to Japan unless a valid Japanese import permit (and an English translation) are provided to the issuing office at the time of endorsement.
