According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control numbers for these information collections are 0579- 0020, 0036, 0048, 0101, 0156, 0278, and 0432. The times required to complete these information collections is estimated to average .25 to 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

OMB Approved

Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify to the following statements:

1. I have verified the presence of all microchips listed in box 21 (required).

2. The cats showed no clinical signs of rabies and other infectious diseases on the day of inspection; AND

a. The cats were vaccinated or revaccinated in accordance with the recommendations of the manufacturer, with a rabies vaccine that is licensed for use in the United States, and are current on rabies vaccinations.

b. The cats were subjected not less than 3 months and not more than 12 months prior to shipment to an antibody titration test as prescribed in the WOAH Terrestrial Manual, with a result of at least 0.5 IU/ml, in a laboratory approved by APHIS.

The rabies titer test sample must be drawn at least four (4) weeks after the previous rabies vaccination.

A waiting period of at least three (3) months must be observed as from date of sampling to date of departure.

The rabies titer test result is valid for twelve (12) months from date of sampling to the date of departure.

3. The cats were vaccinated feline panleukopenia virus (enteritis), feline viral rhinotracheitis, and feline calicivirus (FHV-1), more than fourteen (14) days and less than twelve (12) months prior to export. Vaccination dates, manufacturer, batch number, and expiration dates are noted on the table below.

4. The cats were treated with a long lasting insecticide against ectoparasites within five (5) days prior export.

5. The cats were treated with approved anthelmintics effective against internal parasites (nematodes and cestodes) within five (5) days prior export.

This certificate is valid for three (3) days from date of issuance to date of departure from the United States.
