2026-APHIS-00072-A	Hash, Daniel	Avian Export Services	We received the following letter attached, however, I believe our original FOIA request regarding the statistical data we requested for both The Miami, FL and New York Animal Import Centers, and total numbers of birds (Pigeons) imported to the USA, for the last 5 years, has not been properly provided to us. We downloaded the Zip Files when logged securely into our account on the website, but it appears the information is missing and or incomplete. FOIA Request No. 2026-APHIS-03271-F; This data set only shows a total of (378) birds total for Miami, for a 5 year period. There's no data in the files for NYAIC in New York. I know this is not correct, as we personally have imported thousands of birds directly in our own business, over the last 5 years, just exclusively through the NYAIC in New York, alone. I know several Individuals (competitors) here in the USA, who also work directly in the same importing space as us, that also use the NYAIC to import pigeons for commercial purposes on a regular basis. Please provide us this pertinent information we originally requested so we can do a full evaluation and statistical analysis of total pigeons brought into the USA, dating back 5 years ago to the present day.	05/01/2026

License status (active, suspended, terminated) If contact information is not centrally maintained for all licensees, I will accept whatever subset APHIS does maintain (for example, contacts collected during initial licensing applications and annual renewals). Format preference: Electronic delivery in CSV or Microsoft Excel format. If the data spans multiple files, ZIP archive is acceptable. Time period: All currently active licenses as of the date this request is fulfilled. I operate BreederCheck.com, a free public-interest website that compiles and presents USDA APHIS inspection records in a consumer-friendly format. The site receives over 12,000 monthly visitors — primarily prospective puppy buyers verifying breeders before purchase. We are launching a no-cost claim/response program that allows licensed breeders to add written context next to their inspection records on their public profile (we do not alter the inspection data itself, which remains as published by APHIS). To notify licensed breeders of this opportunity, we need a way to contact them directly. I would prefer to receive the records electronically at the email on file. Please confirm receipt of this request and provide me with a tracking number at your earliest convenience. Thank you, Dragan Filic BreederCheck.com	05/28/2026

This is a companion request to FOIA tracking number 2026-APHIS-04813-F (which sought Class A breeder records) for the same public-interest purpose: I operate BreederCheck.com, a free public-interest website that compiles and presents USDA APHIS inspection records in a consumer-friendly format. The site receives over 12,000 monthly visitors — primarily prospective puppy buyers verifying breeders and dealers before purchase. Class B dealers and brokers are equally relevant because they appear on the same site as commercial breeders and are subject to the same APHIS inspection program. We are launching a no-cost claim/response program that allows licensed dealers and brokers to add written context next to their inspection records on their public profile (we do not alter the inspection data itself, which remains as published by APHIS). To notify licensed dealers of this opportunity, we need a way to contact them directly. I would prefer to receive the records electronically at the email on file. Please confirm receipt of this request and provide me with a tracking number at your earliest convenience. Thank you, Dragan Filic BreederCheck.com	05/28/2026
2026-APHIS-04820-F	ross, monica	Wild Horses Lives Matter	I am requesting copies of the following records maintained by USDA APHIS within the Veterinary Services Process Streamlining (VSPS) system, GlobalVetLink (GVL), or any other electronic equine health database maintained by APHIS. I request any and all Equine Infectious Anemia (EIA / Coggins) test records, VS Form 10-11, or electronic equivalent certificates associated with the 36 USDA 15-digit microchip numbers listed below. The timeframe for this search is January 1, 2024, through December 30, 2025. For each record, I am specifically seeking the issuing state, the name and address of the horse's owner at the time of testing, the name of the veterinarian who performed the test, and the horse's description (breed, color, markings, and sex).	05/28/2026
