

Complements, Supplements, Additives and Flavorings for Human Consumption Containing Minor Percentage of Dairy for Export to Mexico

This document pertains to products for human consumption categorized by Mexico SENASICA as complements, supplements, additives or flavorings, that are authorized by Mexico's COFEPRIS (Ministry of Health), and that contain as the only animal ingredient a minor percentage (less than 50%) of dairy products.

No export certificate for animal products VS form 16-4 is needed for these products if the following conditions are met:

1. The product is presented as a complement, supplement, additive or flavoring product under Mexico's import requirements (HRZ) identified as 005-13-824-USA-USA (Complementos, suplementos, aditivos, saborizantes).
2. Evidence that the animal ingredients are exclusively dairy products.
3. An original and a copy of a quality control certificate and/or a laboratory analysis specific for the product lot, with satisfactory results, issued by the manufacturing company. The document must show that the animal ingredients were subjected to heat processing, either pasteurization or commercial sterilization, indicating time and temperature equivalent to STHT pasteurization (short time/high temperature, 72°C for 15 seconds.)
4. Either/Or
 - i. Copy of the document showing that the importing company is under official sanitary control by the Ministry of Health (COFEPRIS); or
 - ii. Original and copy of the document showing COFEPRIS authorization for the product and the authorized amount.
