

Export certification of processed porcine bone for biomedical use

The bilingual certification statements below are for processed porcine bone for biomedical use derived from animals slaughtered at facilities under official inspection.

Mexico SENASICA requires certain traceability information for animal products offered for importation. For this product, the export certificate should present the product lot number, and production date in the identification block of the VS Form 16-4.

The statements below should be provided in the Additional Declarations section of the Export Certificate for Animal Products (VS Form 16-4) and continuation page VS form 16-4A as needed. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.
