According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control numbers for these information collections are 0579- 0020, 0036, 0048, 0101, 0156, 0278, and 0432. The times required to complete these information collections is estimated to average .25 to 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

OMB Approved
0579- 0020, 0036, 0048, 0101, 0156, 0278, and 0432

Veterinary Health Certificate for Export of Salmonids from the United States of America to Nigeria

Veterinary Authority	Date Of Issue	Certificate Number
UNITED STATES DEPARTMENT OF AGRICULTURE		

Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify to the following statements:

1. The animals for export were visually examined prior to loading, showed no signs of contagious diseases, and to the best of my knowledge were not exposed to infectious agents of diseases of concern.

2. There have been no occurrences of unexplained mortality events in the premises of origin of the animals for export during the 30 days prior to shipment.

3. There have been no cases of World Organisation for Animal Health (WOAH)-listed aquatic diseases in susceptible species from the population of animals for export during the 30 days prior to shipment, including epizootic hematopoietic necrosis (EHN), epizootic ulcerative syndrome (EUS), Gyrodactylosis salaris, infectious hematopoietic necrosis (IHN),infectious salmon anemia (ISA), salmonid alphavirus (SAV), and viral hemorrhagic septicemia(VHS).

4. If the shipment includes germplasm or small life stages, there have been no cases of WOAH-listed aquatic diseases in the broodstock used for the production of the animals for export during the 30 days prior to shipment.

5. If the shipment includes germplasm or small life stages, the broodstock used in the production of the animals for export have not experienced any unexplained morbidity or mortality events during the 30 days prior to shipment at the premises of origin.

6. The container/packaging in which the animals for export are transported is either new or has been cleaned and disinfected prior to use.
