Ideally the data would be structured and at the same level of detail as the 2022-2023 reports provided here: https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-disease-information/avian/avian-influenza/hpai-2022/2022-hpai-commercial-backyard-flocks That said, if the historical is not as detailed, then please provide as much information as possible regarding the timestamp, number of birds affected, type of production (e.g. commercial turkey meat, commercial turkey breeder, commercial broiler meat, etc.), state, and county. If there are any confidentiality concerns for large producers at the county level specificity, then state would be fine in those circumstances. I would like to request the data go back as far as 1960 to present or up to the start date of the new public data set (February 8, 2022).</p>	10/20/2023
