### **Other reminders:**

1. Once again, please make sure that the animal/s have an approved import permit **BEFORE** it leaves country of origin. Applying for an import permit after the animal/s has already left WILL lead to rejection of your SPS permit.

- 2. All Filipinos need to execute a Notarized Affidavit of Undertaking as attached in Annex A (for one-time importers), Annex B (for commercial importers) and Annex C (for foreigners). Foreigners do not need to have it notarized thus a signed Undertaking is only needed.
- 3. For concerns related to TIN number, all individuals who are transacting with the government need to have a TIN number. In the event that the importer is a foreigner, a scanned passport will be enough. For Filipinos living and/or working abroad for a long time, please attach any certification that you have been working abroad, including your passport, so that you will be allowed to accomplish the Annex C (for foreigners).
- 4. Take note of the "**MUST SHIP OUT DATE**" on the import permit. That corresponds to the validity of permit. If for some reason the animal/s have not yet left the country of origin by that date, you will need to apply for another import permit.
- 5. Upon printing of the approved SPSIC, make sure that you have secured an **export certificate/permit** from the Veterinary Authority of the country of origin. This will be checked by the Quarantine Officers at the airport. Failure to present an export certificate/permit will result to prohibition of entry of the animals.
- For problems encountered during registration or uploading of requirement, you may email <u>helpdesk@intercommerce.com.ph</u>. For other concerns, you may email <u>nvqsd@bai.gov.ph</u>
