

Please note: This procedure may be revised as needed. The intended audience for this document is all National Animal Health Laboratory Network (NAHLN) laboratories.

**Message Content:**

**Program OID:**

- Program OID for PRV messaging is 2.16.840.1.113883.3.5.8.11

**Submission Reasons:**

The following are the possible submission reasons for testing associated with PRV.

General Diagnostics	G
Health Monitoring	H
High risk premises	HH
High Risk Wildlife	W
Interstate Movement	M
Traceback	T

**Specimen Type:**

- Spm.4/cwe.1 and spm.4/cwe.2
- SNOMED
  - Serum: 119364003

**Test LOINCS, Results, & Interpretations**

**LOINCS (IDEXX Kits)**

87343-0	PRV glycoprot 1 Ab Ser IA	Pseudorabies virus glycoprotein 1 Ab/Negative control in Serum by Immunoassay
87344-8	PRV glycoprot B Ab Ser IA	Pseudorabies virus glycoprotein B Ab/Negative control in Serum by Immunoassay

## Results and Interpretation Reporting

- S/N Value reported in obx.5
- Interpretation in obx.8
  - Cutoff values for interpretation categories below can be found in the kit inserts. Please note we would like to discontinue usage of IND for suspect results.

<b>S/N Interpretation</b>	<b>Messaging Reporting</b>
Positive	POS
Suspect	SUS
Negative	NEG
