2025-APHIS-09407-F	Leonard, Lori	Concord Veterinary Services, LLC	I am interested in the ingredients of all animal vaccines (companion animal, livestock, poultry, equine, exotic, reptile, fish, honey bees) and any other type of animal for which vaccines are manufactured and licensed in the U.S. For example, vaccines for mink but I do not know how mink are classified under USDA. I understand that the exact "recipe" or amounts of ingredients is proprietary; however, a list of what is in the product is sufficient at this time.	09/02/2025

Here are her details: Animal ID: A300371 Intake Date: Tuesday, September 2, 2025 Description: Female, approximately 2.5 years old *** I've attached a picture of this pretty girl. Circumstances: Found abandoned and picked up from the area of 3249 W. 61st Place, Chicago, IL. I am a concerned citizen who was aware of her situation. I checked 24petconnect.com but was unable to find her listing and wanted to follow up to ensure she is safe. Could you please confirm if she is in your care and provide any information you can about her current status (e.g., if she is on a stray hold, in medical care, etc.)? I am very interested in her outcome and would like to remain informed. Please let me know the best way to do that. Thank you for your time and for the difficult work you do for our city's animals.</p> <p>Warm Regards,</p> <p>(b) (6), (b) (7)(D)</p>	<p>09/03/2025</p>

<u>2025-APHIS-09798-F</u>	Kepnes, Rachel	Beagle Lovers and Rescuers INC	<p>FOIA Request and Formal Complaint Regarding Marshall Farms Inspections and Oversight. I am submitting this letter as both a FOIA request under the Freedom of Information Act and as a formal complaint regarding the USDA's oversight of Marshall Farms Group, Ltd. It has come to my attention that Marshall Farms houses approximately 26,000 dogs and other animals, yet USDA inspection records show that only 110 dogs were inspected. I am deeply concerned about how such a limited inspection could ever be considered acceptable or sufficient given the massive scale of operations. This raises urgent questions:</p> <p>Why are inspectors not reviewing all animals under Marshall's license? How many animals is Marshall Farms currently operating over capacity compared to what their license permits? Given that there is evidence of Marshall Farms attempting to establish an adoption program, what oversight has the USDA conducted to ensure these programs are legitimate, transparent, and not a cover for further violations? Marshall Farms has an extensive history of issues and noncompliance, yet continues to operate under USDA approval. How is this possible? What justification is there for allowing a facility with such a record to continue conducting business—especially in light of the FDA stating that animal testing is no longer required for drug development? If the FDA no longer requires animal testing, why is the USDA continuing to enable mass breeding operations that directly supply such practices? Accordingly, I am requesting under FOIA:</p> <p>All inspection records, reports, and communications related to Marshall Farms Group, Ltd. from January 1, 2020 to present; Records indicating the number of animals Marshall Farms is licensed to house compared to their actual population; All communications regarding Marshall Farms' adoption program(s), including but not limited to discussions with the USDA and state animal welfare agencies.</p>	09/18/2025

We represent Great American Insurance Company, subrogee of William H. Kopke, Jr. Inc., with respect to the referenced shipment of citrus & are pursuing a claim against the ocean carrier, Seatrade Group NV, for damage to the shipment. Our letter of authorization is attached for your reference. On 7/22/24, the shipment consisting of 21,350 cartons of oranges and 4,740 cartons of soft citrus was loaded aboard the vessel at Cape Town, South Africa for carriage to Gloucester City, New Jersey. The carrier was instructed to follow the USDA cold treatment protocol during the transit so the shipment would be cleared for entry upon arrival. Unfortunately, the carrier failed to properly carry out the cold treatment protocol during the voyage and the USDA concluded that the shipment failed cold treatment & required that it undergo a second period of cold treatment. Pursuant to the (FOIA), we are requesting that we be provided with a copy of the entire file regarding the evaluation of the in-transit temperature records (including the records themselves) for compliance with the cold treatment protocol and any reports & communications that were issued in connection therewith. We also request that we be provided with any such documents generated with respect to the second cold treatment period. We request this material under FOIA with no objection to information being redacted in accordance with the Privacy Act.
