Breeding

Culture/grow out

Research

17. Identification of Commodity:*

Scientific Name* (Genus species)	Common Name*	Quantity*	Sex

*Required Information that must be provided.

Veterinary Authority:* Department of Agriculture, Environment and Rural Affairs (DAERA)	Certificate Number:*
---	----------------------

I, the undersigned official veterinarian or fish health inspector of the competent authority, certify that the live animals described above meet the following conditions:

1. Spring Viremia of Carp (SVC):

- a. The facility of origin participates in an ongoing Spring Viremia of Carp (SVC) monitoring program for species susceptible to SVC, by testing twice annually for a minimum of two (2) consecutive years, with at least three (3) months between tests. AND
- b. Populations were tested at a ninety-five (95) percent confidence and two (2) percent assumed prevalence level, and found negative for SVC. AND
- c. Sample collection was done at times when water temperatures are conducive to detecting SVC virus. AND
- d. Samples were collected by a fish health inspector, employed by the competent authority. AND
- e. Cell cultures were incubated on epithelioma papulosum cyprinid (EPC) cell lines at twenty (20) degrees Celsius, in line with OIE recommended procedure. All testing results were negative for SVC.

2. The consignment was inspected by an official veterinarian or fish health inspector employed by the exporting country's competent authority within seventy-two (72) hours of shipment and found to be free of any clinical evidence of SVC disease.

3. Shipping Containers:

- a. All shipping containers are new.
