

Veterinary Certificate for the Export of Dog/Cat to Taiwan From the United States

Country of origin: United States

Import permit number: _____

Owner's name: _____

Address: _____

Exporter name (if different than owner): _____

Address: _____

Description of dog/cat (quantity 1):

Species: _____ Breed: _____

Sex: _____ Age or date of birth: _____

Microchip number: _____

Note: The pregnant dog/cat will be allowed entry into Taiwan only if the pregnancy is under 4 weeks at the time of shipment.

Rabies vaccination (inactivated vaccines only¹):

Name: _____ Manufacturer: _____

Vaccination date: _____ (yyyy/mm/dd)

Note: The dog/cat shall have been vaccinated, at the age of at least 90 days old, no less than 30 days and no more than one year prior to shipment.

Rabies vaccination (as indicated on the import permit):

Name: _____ Manufacturer: _____

Vaccination date: _____ (yyyy/mm/dd)

Note: This section is only required if the rabies vaccination on the import permit differs from the previously listed vaccination information.

Rabies neutralization testing:

Current (or Second) date of sampling: _____ (yyyy/mm/dd) Result: _____ IU/ml

Name and address of the laboratory: _____

Note: The dog/cat has been sampled not less than 90 days** and not more than 1 year prior to shipment, using a neutralization antibody titration test, with a titer of at least 0.5 IU/ml rabies antibodies in the blood. The test has been carried out in a rabies reference laboratory of the World Organization for Animal Health (WOAH) or a laboratory designated by the Animal and Plant Health Inspection Agency (APHIA) of Taiwan².

¹ Merial Purevax™ vaccines are accepted.

² Kansas State Rabies Laboratory, Kansas (FAVN), or Department of Defense Laboratory, Veterinary Food Analysis and Diagnostic Laboratory, Texas (FAVN), or Auburn University, College of Veterinary Medicine, Department of Pathobiology, Virology Laboratory (FAVN), or University of Missouri Veterinary Medical Diagnostic Laboratory (FAVN)

** In cases when the dog/cat will be exported more than one year after completion of a satisfactory rabies test, a second test is required as listed above. In this case, a sampling date that is <90 days prior to shipment is acceptable when the second sample is collected between 91 days and 1 year after the initial rabies test's sampling date, information on the initial sampling date is listed below:

Initial date of sampling: (yyyy/mm/dd) _____ Result: IU/ml _____

Name and address of the laboratory: _____

Clinical examination:

I, _____, the undersigned licensed veterinarian certify that the dog/cat described above has been examined before departure on the date indicated below and that it showed no clinical sign of rabies.

Date of examination: _____ Signature: _____
(yyyy/mm/dd)

Validity:

The animal must arrive in Taiwan within 30 days of the date of endorsement for the health certificate to be considered valid.
